CYC MOTOR X6P Firmware Upload Ride Control App

Product Information

- **Specifications**

- **Product Name:** CYC X6P EPAC
- **Manufacturer:** CYC MOTOR
- **Contact Information:**
 - support@cycmotor.com
 - +952 3690 8938

Product Usage Instructions

- **X6P Firmware Upload Guide**

- To update the firmware of your CYC X6P EPAC, follow these steps:

- **Click the following link to download the firmware file:** [Firmware Download Link](#)

- Press the DOWNLOAD button to save the file onto your device.
- Access the Ride Control App.
- Go to Firmware Update within the app.
- Press CHOOSE FILE and select the downloaded .bin firmware file.
- Load the file onto the controller to initiate the update process.

- **Additional Firmware Files**

- If you need other firmware files for CYC X-Series controllers, you can find them [here](#).
- For technical assistance, contact us at technical_support@cycmotor.com.

FAQs

- **Q: Why are motor power readings not displayed on the app & display?**

- **A:** Motor power readings may not be shown due to firmware issues. Try updating the firmware following the steps provided in the user manual.

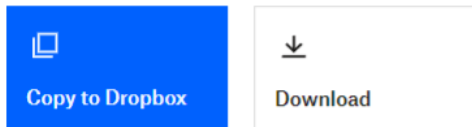

- **Q: How can I get technical support for my CYC X6P EPAC?**

- **A:** For technical support, please email technical_support@cycmotor.com or call +952 3690 8938.
