K-C31 Work with Remote Simple User Manuals

●This is simple manuals that teach you how to connect button transmitter to display, and
adjust prompt voice what you need. More functions can be read from another manuals. ●This system can work directly after connecting the display's adapter to power. Please press "NEXT" button to start the calling, then the displays will show 001→1. When restart the
displays after turning off, the calling number will start from 002. ●Default voice is "Please number XXX go to X counter". If you want to change this voice
of "counter" to "room" or "office", you need go to F8-E2 to set. If need the simple "ding
dong" sound, please go to F6-E1-4 to set. You need to reconnect if it doesn't work, first setting F9-E1 and then set F1-E1. Note: Can adjust the volume directly by UP/DOWN key when the displays in stand-by
