CZUR TouchBoard V1 Wireless Bluetooth Touchpad Keyboard

Product Information

The Touchboard V1 is a versatile input device that can be used with the StarryHub. It has two modes: Touch mode and Board mode. In Touch mode, you can use finger touch gestures to operate the StarryHub, such as sliding, tapping, zooming, and more. In Board mode, the Touchboard functions as a keyboard for inputting text.

Specifications

- Power On: Press and hold the Touch/Board button for 5 seconds until the indicator blinks in blue.
- Pairing: Place the TouchBoard back on the charging dock and wait for 10 seconds until the icons on the first row light up.
- Input Modes: Touch mode and Board mode.
- Low Battery Indicator: The LED indicator turns red when the battery is low.

Product Usage Instructions

Using Touch Mode

In Touch mode, you can use various finger touch gestures to operate the StarryHub:

- Slide: Use one finger to slide across the TouchBoard.
- Tap: Use one finger to tap on the TouchBoard.
- Slide with 2 fingers: Use two fingers to slide across the TouchBoard.
- Zoom in/out with 2 fingers: Pinch or spread two fingers on the TouchBoard to zoom in or out.
