HoptiSync Hub

Quick Start Guide

Package Contents

- 1x HaptiSync Hub

- 1x Power Cord

You also need:

(Included in seat package)

- 1x D-BOX Haptic Seat
(at least)

- 1x Power Cord

- 1x IEC Plug-Lock Insert

- 3 or 4x Stabilization Cups
(varies per model)

- 1x CAT.5E Shielded Cable

Complete User Manual is accessible at:
<https://www.d-box.com/en/downloads/>

1. Position your HaptiSync Hub

- Install your HaptiSync Hub on a flat surface

- Center your HaptiSync Hub in the audio environment and aim the integrated audio sensor (front side) towards your front speakers.:

2. Prepare your Haptic Seat

- Install the stabilization cups under your Haptic Seat:

- Make sure nothing will be pinched or damaged while the Haptic Seat is moving.
- Connect the HaptiSync Hub to the Haptic Seat using the CAT.5E shielded cable provided with the system. See other side of this page or the user manual for a specific wiring diagrams.
- Plug your HaptiSync Hub and your Haptic Seat into an electrical outlet.
- Press the power button on your HaptiSync Hub to turn it on.

3. Create your D-BOX Connect Account

- Go to the D-BOX Connect website:
<https://connect.d-box.com>
- Create an account using a valid email address;
- Edit your payment information. (Please note that a valid credit card is required to complete your registration).
- Purchase your D-BOX connect subscription.

4. Complete HaptiSync configuration from the D-BOX Connect website

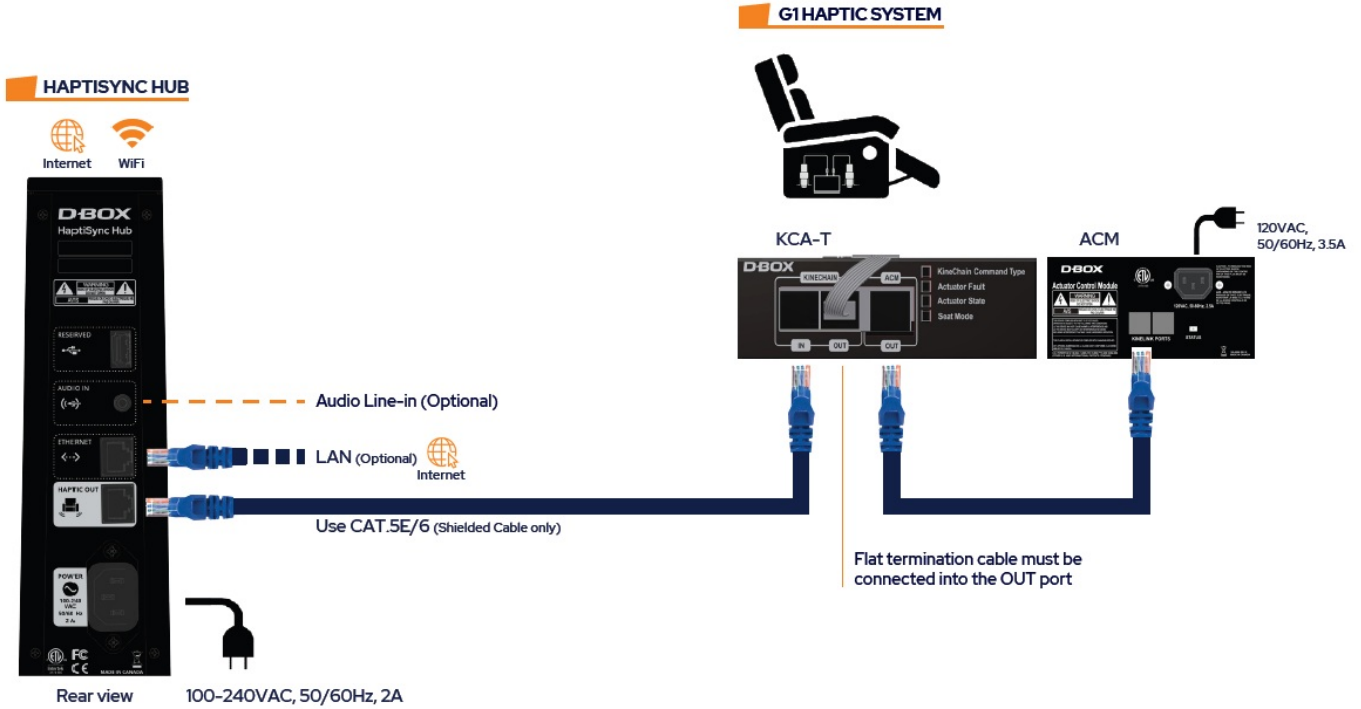

- Install the D-BOX HaptiSync App
- Connect your HaptiSync Hub to your network
- Activate your HaptiSync Hub
- Test your HaptiSync System
- **Enjoy your favorite immersive content!**
