D-Link DWL-922 Wireless USB Network Router

Description

D-Link's Wireless G Network Starter Kit enables you to quickly set up a wireless network. With the convenience of USB, surf the web wirelessly from your desktop or notebook PC. Share your broadband Internet connection with everyone in your home. Send files between computers on the network with the speed of 802.11g. Advanced security features keep your information secure as you experience the freedom of wireless networking.

- Create a High-Speed Wireless Network and Share Your Internet Connection
- Surf the Web Wirelessly from Your Desktop or Notebook PC
- Protect Your Network with WPA and 802.1x Security
- Connect to 802.11g and 802.11b Wireless Networks and Hotspots

Specifications

- **Brand:** D-Link
- **Model:** DWL-922
- **Router Type:** Wireless USB Network Router
- **Wireless Standard:** 802.11g
- **Security:** WPA, WPA2, WEP
- **Frequency Band:** 2.4 GHz
- **Number of LAN Ports:** 4
- **Number of USB Ports:** 1
- **Antenna Type:** External
- **Wired Transfer Rate:** 10/100 Mbps
- **Wireless Transfer Rate:** Up to 54 Mbps
- **Compatibility:** Windows and Mac
- **Additional Features:** Firewall, QoS (Quality of Service)

Router

- Connect up to Four Ethernet-enabled PCs
- Advanced Firewall and Parental Controls Features Secure Your Network
- User-friendly Web-based Management

USB Adapter

- Convenient USB 2.0 Interface to Connect to a Desktop or Notebook PC
- Site Survey Utility to Detect and Connect to Available Wireless Networks

Kit Features

- Compatible with 802.11g and 802.11b Wireless Standards
 - Maximum Wireless Signal Rate of up to 54Mbps
 - Support for WPA and 802.11x to Secure the Wireless Network
 - Free 24/7 Technical Support
 - 3-Year Warranty
1. Maximum wireless signal rate derived from IEEE Standard 802.11g specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate. Environmental factors will adversely affect wireless signal range.
 2. 3-Year Warranty and 24/7 Technical Support available only in the U.S.A

FAQs

What is the D-Link DWL-922 Wireless USB Network Router?

The D-Link DWL-922 is a wireless USB network router that provides wireless connectivity and networking capabilities for home and small office use.

What are the key features of the DWL-922 router?

Key features of the DWL-922 include wireless networking, USB connectivity for sharing devices, firewall protection, and easy setup for creating a home or small office network.

What wireless standards does the DWL-922 support?

The DWL-922 typically supports wireless standards such as 802.11g, providing fast and reliable wireless connectivity.

How many devices can connect to the router wirelessly?

The number of devices that can connect wirelessly to the DWL-922 may vary, but it often supports multiple simultaneous connections for various devices.

Can I use the USB port for sharing printers or storage devices?

Yes, the USB port on the DWL-922 allows you to share USB printers or storage devices across your network, making it convenient for file sharing and printing.

Is it compatible with both Windows and Mac operating systems?

Yes, the DWL-922 router is typically compatible with both Windows and Mac operating systems, ensuring versatility in network setup.

What security features does the router offer?

The router often includes security features like WPA/WPA2 encryption, a built-in firewall, and password protection to safeguard your network and data.

Does it come with a user-friendly setup wizard?

Yes, the DWL-922 typically includes a user-friendly setup wizard to guide you through the network configuration process, making it easy to set up your network.

What is the range of the wireless signal?

The wireless signal range of the DWL-922 router may vary, but it often covers a typical home or small office environment, providing reliable wireless coverage.

Can I set up parental controls on the router?

Some models of the DWL-922 may offer parental control features, allowing you to restrict internet access for specific devices or users.

Is there a guest network feature for visitors?

Yes, the DWL-922 often includes a guest network feature, allowing you to create a separate network for visitors to maintain network security.

What is the warranty coverage for the DWL-922 router?

The D-Link DWL-922 Wireless USB Network Router typically comes with a warranty of 3 year from the date of purchase.

Is this router suitable for gaming and streaming?

Yes, the DWL-922 router is suitable for gaming and streaming, providing reliable wireless connectivity for these activities.
