# **DUB-2332 USB-C to Gigabit Ethernet Network Adapter**

D-Link DUB-2332 USB-C to Gigabit Ethernet Network Adapter with 3xUSB 3.0 and USB-A to **USB-C Adapter** 

The D-Link DUB-2332 is a USB-C to Gigabit Ethernet Network Adapter that also has 3 USB 3.0 ports. The package includes a USB-A to USB-C adapter for compatibility with computers that don't have a USB-C port. The DUB-2332 is designed for use with PCs or laptops running Windows 7/8/8.1/10 or macOS (OS X 10.8 and above) with a USB Type-C port or USB 3.0 Type-A port.

#### **Hardware Overview**

The DUB-2332 has the following interfaces:

- USB Type-C connector
- · Gigabit Ethernet port
- 3 USB 3.0 ports
- · Aluminum enclosure

The product also has LED indicators for Speed 1 (flashing red) and Speed 2 (flashing green).

### **Product Setup**

Follow the steps below to set up your DUB-2332:

- 1. Plug the USB Type-C cable of the DUB-2332 into an available USB Type-C port on your computer. If your computer doesn't have a USB Type-C port, plug the additional adapter into an available USB 3.0 Type-A port on your computer first. Then, plug the USB Type-C cable of the DUB-2332 into the USB Type-C port on the additional adapter.
- 2. Run the setup file in the opened folder to begin the DUB-2332 driver installation. If the folder containing the setup file isn't opened automatically, please open it through a file manager and run the setup file.
- 3. Attach an Ethernet cable to the Ethernet port on the DUB-2332 and to your network switch, hub, or router. You can also connect USB devices to the USB 3.0 ports on the DUB-2332.

Note: Using a USB 1.1 or USB 2.0 port will affect device performance. A USB 3.0 port is recommended.
