C800 Solid State Drive

"

Specifications:

- Product: Solid State Drive (SSD)
- Size: 2.5 inch
- Model: V1.0.4

- Manufacturer: Dahua Memory

Product Usage Instructions:

About the SSD:

The Solid State Drive (SSD) is designed for use with Dahua SSD 2.5 inch devices.

Safety Instructions:

The manual provides important signal words for hazard indication and risk prevention. Follow the safety instructions to avoid potential hazards.

Important Safeguards and Warnings:

Before using the SSD, carefully read and follow the instructions outlined in the manual to prevent damage and ensure safe usage.

1. **Operating Requirements:**

- Do not place or install the product in direct sunlight or near heat sources.
- Ensure the product is placed horizontally or on a stable surface to prevent falls.
- Avoid dropping liquids on or near the product to prevent damage.

FAQ:

What should I do if liquid spills on the SSD?

If liquid spills on the SSD, power off the device immediately,

disconnect it from the power source, and contact customer service for further assistance.

How can I update the SSD software?

To update the SSD software, visit the official website of Dahua Memory or contact customer service for guidance on the latest program updates and supplementary documentation.

V1.0.4

Foreword

General

This manual introduces the structure and installation of the Solid State Drive (hereinafter referred to as "the SSD").

Application

Applied to Dahua SSD 2.5 inch.

Safety Instructions

The following categorized signal words with defined meaning might appear in the manual.

Signal Words DANGER WARNING
CAUTION TIPS NOTE

Meaning Indicates a high potential hazard which, if not avoided, will result in death or

serious injury. Indicates a medium or low potential hazard which, if not avoided, could result in slight or moderate injury. Indicates a potential risk which, if not avoided, could result in property damage, data loss, lower performance, or unpredictable result. Provides methods to help you solve a problem or save you time. Provides additional information as the emphasis and supplement to the text.

About the Manual

The manual is for reference only. If there is inconsistency between the manual and the actual product, the actual product shall prevail.

We are not liable for any loss caused by the operations that do not comply with the manual.

The manual would be updated according to the latest laws and regulations of related jurisdictions. For detailed information, refer to the paper manual, CD-ROM, QR code or our official website. If there is inconsistency between paper manual and the electronic version, the electronic version shall prevail.

All the designs and software are subject to change without prior written notice. The product updates might cause some differences between the actual product and the manual. Please contact the customer service for the latest program and supplementary documentation.

There still might be deviation in technical data, functions and operations description, or errors in print. If there is any doubt or dispute, we reserve the right of final explanation.

Upgrade the reader software or try other mainstream reader software if the manual (in PDF format) cannot be opened.

All trademarks, registered trademarks and the company names in the manual are the properties of their respective owners.

Please visit our website, contact the supplier or customer service if there is any problem occurring when using the device.

If there is any uncertainty or controversy, we reserve the right of final explanation.

Important Safeguards and Warnings

This section introduces the proper way of using the SSD, and danger and property damage preventions. Before using the SSD, read this manual carefully. Follow the instructions and keep this manual properly.

Operating Requirements

Do not place or install the product in a place exposed to sunlight or near the heat source.

Keep the product installed horizontally or on a stable place to prevent it from falling.

Do not drop or splash liquid onto the product, and make sure that there is no object filled with liquid on the product to prevent liquid from flowing into the product.

Install the product in a well-ventilated place, and do not block the ventilation of the product.

Operate the product within the rated range of power input and output.

Do not disassemble the product. Transport, use and store the product under the allowed humidity and temperature conditions.

Description

1

Data port

Connect the SSD to the SATA data port on devices such as PC with SATA data cable.

2

Power port

Connect the SSD to SATA power port on devices such as PC with SATA power cable.

2 Installation

2.1 Preparation

Table 2-1 Environment requirements

Installation Environment	Description
Operating Temperature(According to the specification sheet)	0°C to 70°C (32°F to 158°F) -25°C to 85°C (-13°F to 185°F) -40°C to 85°C (-40°F to 185°F)
Storage Temperature	-40°C to 85°C (-40°F to 185°F)
Operating Humidity	5%95% (non-condensing)

2.2 Installing SSD

Before installing, make sure that your PC mainboard supports SSD, and there are enough SATA slots to be used by the SSD. There are two installation methods for the SSD: Cable connection and direction insertion.

3

There are two installation methods for the SSD: Cable connection and direction

insertion. Cable connection: Connect corresponding ports on the main board of devices to the SSD with SATA data cable and power cable.

SATA data cable and power cable of the SSD are not included. You can purchase them separately as needed. Direct insertion: Insert data and power ports of the SSD directly to the corresponding ports on the main board of devices.

Figure 2-1 Install by cable connection

Appendix 1 Precautions for Use

Before installation, make sure that your PC motherboard supports this SSD and it has enough M.2 slots to use independently.

Please make sure that your PC M.2 port support PCIe3.0 bandwidth , or else the SSD won't get your desired performance.

Since Window 7 operating system does not come with the corresponding driver for NVME protocol. So when you install it, the system will not recognize the NVMe SSD. We sincerely recommend you to use Windows 8.1 or above or Linux operating system. If you continue to use Window 7, we recommend that you download the a standard NVMe driver from the Internet.

The changeable of design and apperance to improve the product , the company keep the reserves right of it .
