Product Usage Instructions

1. Ensure you have all the components listed in the installation guide.
2. Identify the PH1 and AB connectors on the camera.
3. Locate the appropriate mounting position for the camera.
4. Use screws to secure the camera in place.
5. Connect the necessary cables to the PH1 and AB connectors on the camera.
6. If using a PTZ camera, follow the specific instructions provided in its user manual to configure and control its movement.
7. Power on the camera and PTZ camera if applicable.
8. Refer to the user manual for further instructions on camera settings, network configuration, and accessing the camera feed remotely.
