## dahua VIKYLIN Camera LED Brightness Setting

Specifications

- Brand: Dahua
- Product: Camera
- Feature: LED brightness setting

Product Usage Instructions

1. Use the "Config Tool " to search for the camera IP, open IE, and log in to the camera web page

2. Click "Setting-Camera-Conditions-IIIuminator" to select the mode, on, off or manual

Frequently Asked Questions

Q: How do I find the IP address of my Dahua camera?

A: You can use the Config Tool camera web page to search for the camera IP.
Alternatively, check the camera's user manual for instructions on finding the IP address.

Q: What is the difference between 'on', 'off', and 'manual' LED brightness settings?

A:

- 'On': LED brightness is set to maximum.
- 'Off': LED brightness is turned off.
- 'Manual': Allows you to adjust the LED brightness level manually according to your preference.
