Danfoss 14202 000 00 Icon Master Radio Module

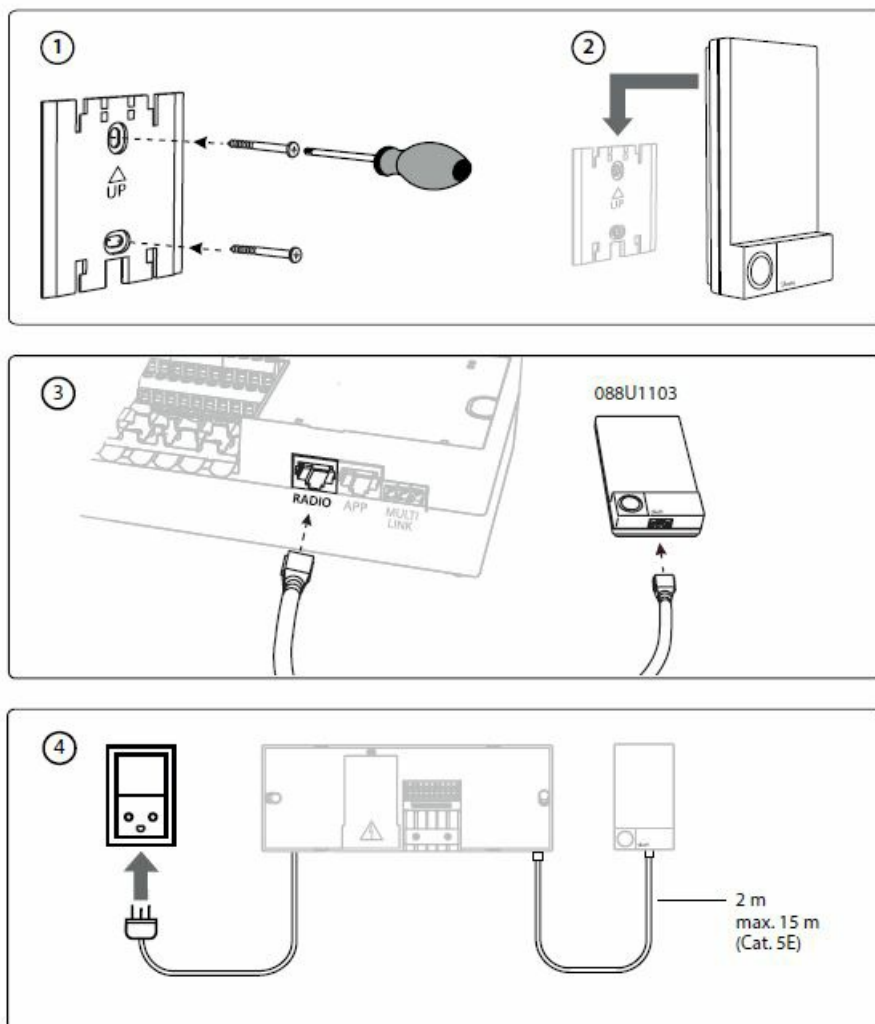

Product Information

The Radio Module is an accessory for the Danfoss Icon™ Master system. It is a radio equipment type that is compliant with Directive 2014/53/EU. The module can be installed up to a maximum distance of 30m and is compatible with metal/steel surfaces. The product model numbers are VIMDG10F and 088N2105.

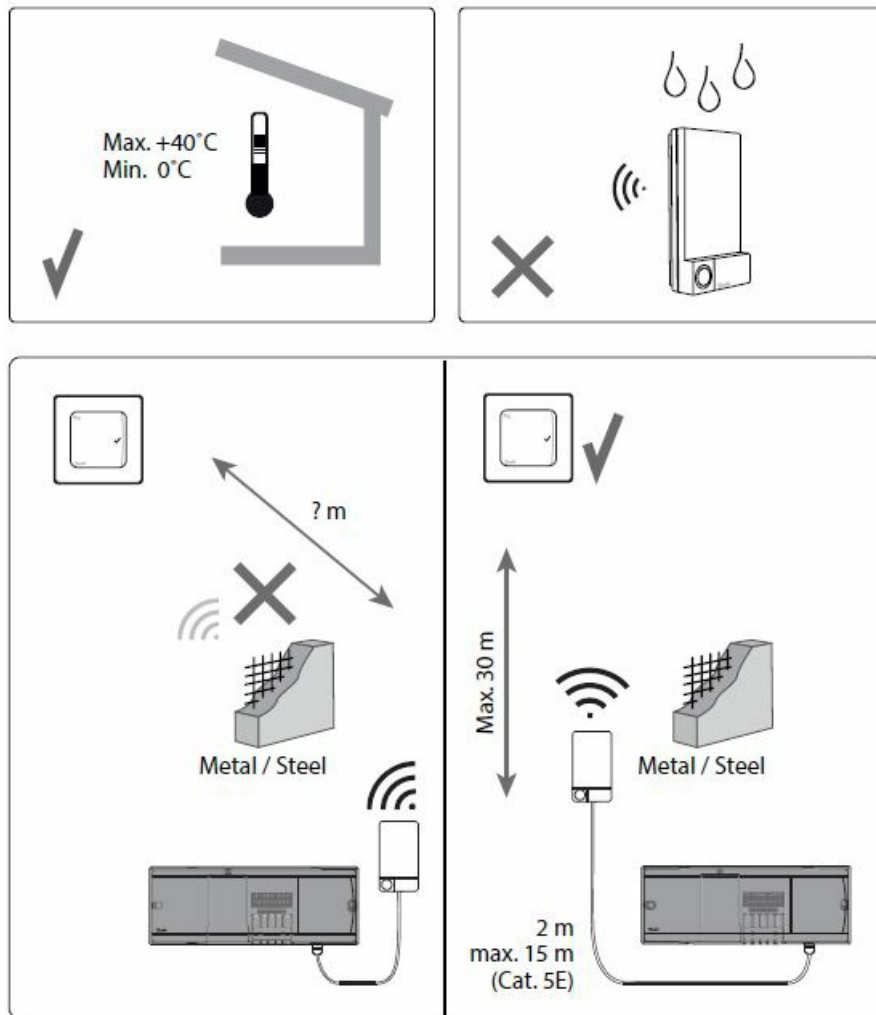

Product Usage Instructions

1. Before installation, ensure that the Danfoss Icon™ Master system is installed and functioning correctly.
2. Determine the location for the Radio Module installation. It should be installed within a maximum distance of 30m from the Danfoss Icon™ Master system and on a metal/steel surface.
3. Ensure that the maximum cable length of Cat. 5E is not exceeded. The maximum length for the cable is 15m.
4. Install the Radio Module by following the instructions provided in the installation guide.
5. Verify that the installation has been successful by checking the connection between the Danfoss Icon™ Master system and the Radio Module.
6. If there are any issues with the installation or connection, refer to the Troubleshooting section of the installation guide or contact customer support.
