**Danfoss Aero RA Click Thermostatic Sensors**

## Product Information

The product is identified by the code numbers 013G1246 and 013G1236. It comes with an installation guide that includes instructions for setting up the product. There is also a blind mark included for proper installation.

The product has a maximum setting of 4 and a minimum setting of 2.

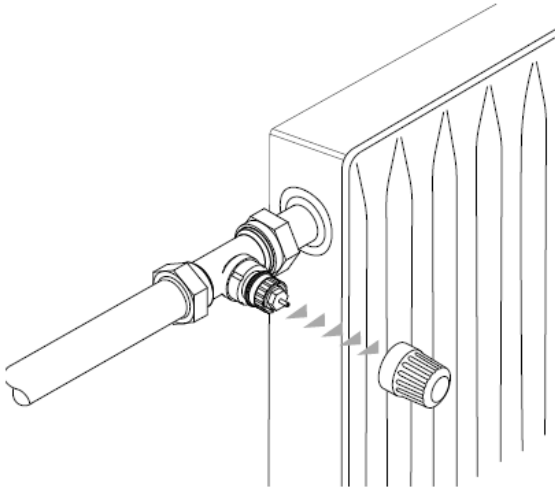

## Product Usage Instructions

1. Refer to the installation guide for proper setup and installation of the product.
2. Ensure that the blind mark is properly aligned during installation.
3. Set the product to the desired maximum or minimum setting by following these steps:
  1. For maximum setting, turn the dial until it reaches the number 4.
  2. For minimum setting, turn the dial until it reaches the number 2.

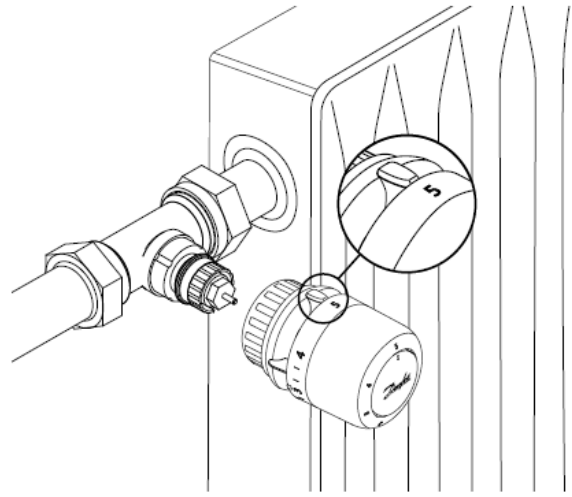

Make sure to test the product after installation to ensure that it is functioning properly.
