Danfoss Aero RA Series Click Thermostatic Sensor

Product Information

The product is a device with the code number 013G1246 or 013G1236 (depending on the model) and the blind mark AN446274064324en-000101. The device has a maximum setting of 4 and a minimum setting of 2. The installation guide provides instructions on how to set up the device.

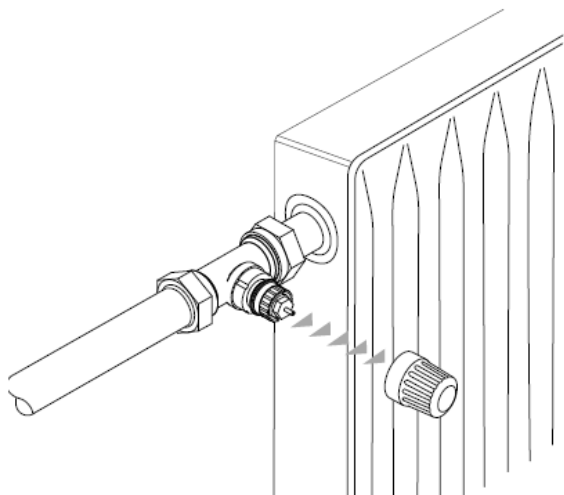

Product Usage Instructions

1. Before installation, ensure that you have the correct device with the code number and blind mark specified in the manual. Set the maximum value by turning the device to the right until it reaches the number 4.
2. Set the minimum value by turning the device to the left until it reaches the number 2.

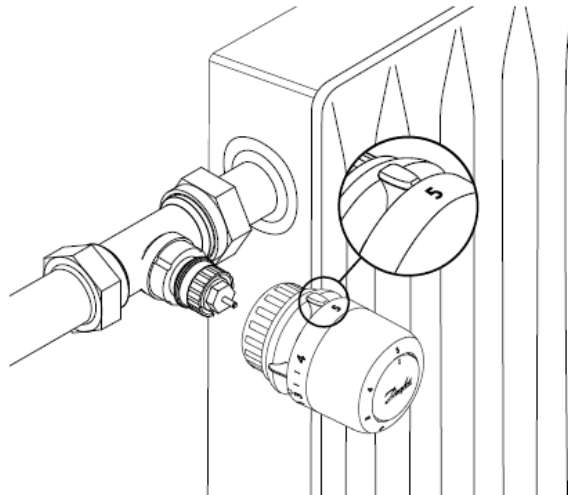

Note that the device should only be used within the specified minimum and maximum settings. Using the device beyond these settings may result in damage to the product or other equipment.
