**Danfoss Aero Series Tamperproof Remote Sensor**

## Product Information

### Thermostatic Sensors Series

The thermostatic sensors series is a set of sensors designed to control the temperature in different applications. The package includes 20 pieces of code no. 013G1232 and 20 pieces of code no. 015G4952 scale covers.

### Installation Guide

1. Start by mounting the thermostatic sensor on the surface where you want to control the temperature.
2. Ensure that the sensor is properly secured by clicking it into place.
3. Attach the scale cover to the sensor by clicking it into place.
4. Adjust the temperature settings by rotating the knob on the sensor. The MAX setting corresponds to the highest temperature level, while the MIN setting corresponds to the lowest temperature level.

**Note:** The thermostatic sensors series has a range of 0-2m. The scale cover code no. is 015G4952 (20 pcs) and the thermostatic sensor code no. is 013G1232 (20 pcs).
