Partner Portal

– Quick Setup Guide

Alsmart®

In the Danfoss partner Portal you can find supporting materials for the Alsmart® range.
You will find the partner portal here: <https://partner.danfoss.com/>

Step 1 – Login or register

The image shows the Danfoss Partner Portal interface. At the top, there's a navigation bar with the Danfoss logo and a 'Log in / Sign up' link. Below this, the main heading is 'Danfoss Partner Portal' with a subtext: 'Find the tools, resources, collaboration and support that you need to manage your design projects more efficiently with our products'. There are 'Log in' and 'Sign up' buttons. A 'Welcome to Danfoss Partner Portal' section follows, explaining the portal's purpose and providing a 'Become a partner' button. Below this, a section titled 'Possibilities with the Partner Portal Tools' shows three cards. Red arrows point from the 'Log in' and 'Sign up' buttons to two separate screenshots of the login and registration forms.

Benefits of a Danfoss Profile

- Easy access to a variety of Danfoss applications
- Single username and password
- Maintain your information in one place
- Overview of your Danfoss applications

We are not done including all our applications. You will soon have access to more of your preferred applications using the Danfoss Profile.

Step 2 – Select Knowledge Hub

The image shows the Danfoss Partner Portal interface. At the top, there's a navigation bar with the Danfoss logo and a 'Log in / Sign up' link. Below this, the main heading is 'Danfoss Partner Portal' with a subtext: 'Find the tools, resources, collaboration and support that you need to manage your design projects more efficiently with our products'. There are 'Log in' and 'Sign up' buttons. A 'Welcome to Danfoss Partner Portal' section follows, explaining the portal's purpose and providing a 'Become a partner' button. Below this, a section titled 'Possibilities with the Partner Portal Tools' shows four cards: 'Product data tool', 'Manage stock and branches', 'Knowledge hub', and 'Invite a Partner'. The 'Knowledge hub' card is circled in red. Below this, a section titled 'Knowledge hub' shows a grid of articles. The first article is 'BIM models in the Product Data Tool', the second is 'Introducing new manual radiator thermostats', and the third is 'New drawing formats now available in the Product Data Tool'. The fourth article is 'Digital Product Presentation Playbook'.

Danfoss Partner Portal

Find the tools, resources, collaboration and support that you need to manage your design projects more efficiently with our products

Product data tool

Download all the necessary information about Danfoss products in a variety of formats

Manage stock and branches

Manage your stock and branches, and inform other about what you have available

Knowledge hub

Learn about Partner Portal and find other available information and assets relevant for you

Invite a Partner

Quick and easy way to apply for access to the portal back for your Partner
