Danfoss EVRAT Overhaul kit

Product Information

This overhaul kit is designed for use with the Danfoss 32F385_O10_2014 model. It contains rubber and fiber components in various sizes to assist in maintenance and repair of the designated product.

Installation

Parts Description

1 Total no. = 1	2 Total no. = 1	3 Total no. = 1	4 Total no. = 4	5 Total no. = 1	6 Total no. = 4
7 Total no. = 1	8 Total no. = 1	9 Total no. = 2	10 Total no. = 1	11 Total no. = 1	12 Total no. = 1

Product Usage Instructions

Rubber Components:

1. Identify the rubber components included in the kit.
2. Ensure proper sizing matches the components being replaced.
3. Follow manufacturer guidelines for installation of rubber components.

Fiber Components:

1. Identify the fiber components included in the kit.
2. Verify the correct quantity of fiber components required for the repair.
3. Handle fiber components with care to prevent damage.

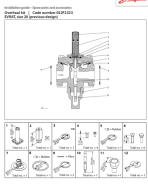

General Instructions:

1. Refer to the Danfoss 32f385_o10_2014 user manual for specific installation steps.
2. Ensure all components are securely installed to prevent leaks or malfunctions.
3. Perform a test run after installation to confirm proper functioning of the product.

FAQ

- **Q: How often should I perform maintenance with the overhaul kit?**
 - A: Maintenance frequency may vary based on usage and environmental conditions. It is recommended to refer to the product manual for guidance on maintenance schedules.
- **Q: Can I use this overhaul kit for other models?**
 - A: This kit is specifically designed for use with the Danfoss 32F385_O10_2014 model. It is not recommended for use with other models unless specified by the manufacturer.
