Low Blue Light
(Hardware
Solution)

www.tuv.com
ID 1111246551

The excessive blue light of display products can cause eye fatigue, insomnia and other adverse reactions. This product is a low blue TÜV Rheinland certified product,by reducing the blue light component technology, can reduce eye fatigue and other adverse reactions to some extent. In order to protect your eyesight,it is still recommended to avoid watching for a long time.If you feel eye strain,it can be relieved by looking into the distance or doing eye health exercises.

Important Precautions

- Do not look directly at the projection beam with your eyes, because the strong beam may harm your eyes.
- Do not block or cover the heat dissipation holes of the device to avoid affecting the heat dissipation of internal parts and damaging the device.
- Do not throw things to the device top cover, or knock the edge. It has the risk to broke the glass.
- Keep away from humidity, exposure, high temperature, low pressure, and magnetic environment.
- Do not place the device in areas susceptible to excessive dust and dirt.
- Put the device to the flat and stable station, do not put it to the place prone to vibration
- Please use correct type of battery for the remote control.
- Only use attachments/accessories specified or provided by the manufacturer (such as the exclusive supply adapter, bracket etc).
- Do not disassemble the device personally, repair the device only staff authorized by the company.
- Place and use the device in an environment of 0°C-40°C.
- Do not use the earphones for a long time. Excessive sound from the earphones can damage your hearing.
- The plug considered as a disconnect device of adapter.
- As with any bright source, do not stare into the direct beam. RG2 IEC 62471 -5:2015
