# **Parts & Features**

# **Using Your Mini Waffle Maker**

# **BEFORE FIRST USE**

Remove all packaging material and thoroughly clean your Mini Maker Waffle.

Never touch the Cooking Surface or Cover while appliance is in use.

DO NOT lift the Cover so that your arm is over the Cooking Surface as it is hot and may cause injury.

Always lift and lower the Cover by the Cover Handle. Lift from the side.

- 1. Place the appliance on a stable and dry surface. Plug the cord into a power outlet. The Indicator Light (photo A) will illuminate, signaling that the Mini Waffle Maker is heating up.
- 2. Once the Cooking Surface reaches the optimal cooking temperature, the Indicator Light will automatically shut off. Now, you're ready to get cooking (photo B)!

- 3. Carefully lift the Cover by the Cover Handle and spray both Cooking Surfaces with a small amount of cooking spray (photo C).
- 4. Place or pour batter onto the Cooking Surface (photo D) and close the Cover.

# Chef Tip!

Aerosol cooking sprays often contain additives that can cause nonstick surfaces to become sticky and hard to clean over time. To ensure the longevity of your product, use a spray bottle and a neutral oil (vegetable, canola, etc.) to lubricate cooking surfaces.

- 5. Once waffle is cooked to your preference, carefully remove it from the Cooking Surface with a heat-resistant nylon or silicone cooking utensil (photo E).
- 6. When you have finished cooking, unplug your Mini Waffle Maker and allow it to cool before moving or cleaning (photo F).

**NOTE:** Do not use metal utensils to remove or place food on the Cooking Surface as this will damage the nonstick surface.
