403 Vantage Vue Weather Station

Prepare the Sensor Suite: attach wind cups and wind vane; pull tab on battery (or install battery if not included); install debris screen and rain collector tipping spoon assembly.

2

Download the Weather Link app.

If using Weather Link Live, power it up and use the Weather Link app to set it up.

If using Weather Link Console, power it up and follow the on-screen prompts to set it up.

3

Verify data transmission from the Sensor Suite to the Weather Link app or to the Console.

Note: For best reception during this step, Weather Link Live and/or Console and the Sensor Suite should be at least 10 feet (3 meters) apart.

(Initial reception typically takes 10 minutes depending on specific 1-3 minutes but can take up to environmental conditions.)

Mount the Sensor Suite to its outside mounting pole.

Please refer to your manuals for detailed instructions.

Manuals can be downloaded at www.davisinstruments.com/vv-manual.
