## INSTALLATION

1. In case of hanging a single FIFTY TOP speaker, fasten the flybar to the speaker using B screws as shown.
2. In case of hanging two FIFTY TOP speakers, the upper one must be stacked upside down.  
The logo normally is on the bottom. Fasten the flybar to the speaker using B screws.  
Please use SRK-FIFTY brackets (not included) to fasten the speakers.
3. In case of hanging of two side by side or four FIFTY TOP speakers (two speakers x two rows), fasten the flybar to the speakers using B screws as shown and then fasten the speakers using SRK-FIFTY brackets.

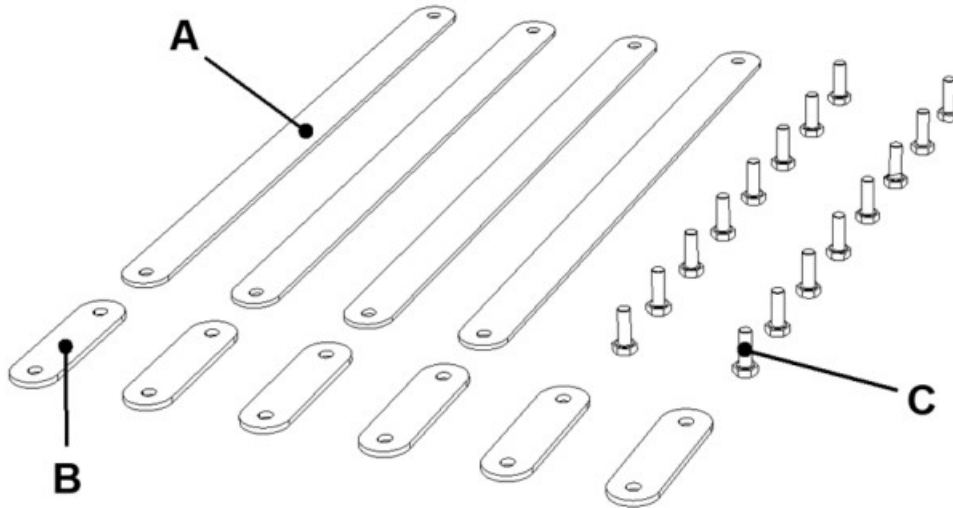

4. Please use appropriate hanging points depending on the inclination.

**CAUTION:** According to EUROCODE 3 (EN 1993-1-1) / BGV C1, max 4 speakers can be hung to DRK FIFTY flybar (two speakers x two rows). The maximum allowed inclination is +30° (positive) pointing up and -25° (negative) pointing down.

Features, specification and appearance of products are subject to change without notice. dB Technologies reserves the right to make changes or improvements in design or manufacturing without assuming any obligation change or improve products previously manufactured.

#### INSTALLATION

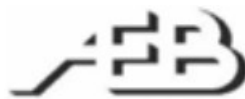

1. In case of hanging two FIFTY TOP speakers, first fasten the flybar DRK-FIFTY (not included) to the upper speaker, that must be stacked upside down; normally the logo is on the bottom. Place the A and B brackets and fasten using C screws as shown.
2. Please use appropriate DRK-FIFTY flybar hanging points depending on the inclination.

**WARNING:** DRK-FIFTY flybar must be mounted before the SRK-FIFTY bracket kit.
