## A Big Thank You

We're thrilled that you have chosen to purchase the Mini LCD Video Projector. At DBPOWER, we're committed to providing you with products that enhance your daily life. We also aim to give our customers excellent support. Should you have any questions or feedback about your new product, simply get in touch with our customer support team at 1-855-666-9888, or by email at support@dbpower.co

#### Enjoy your new product!

## **NOTICE**

Not recommended for PPTs, Word, Excel, or business presentations.

To connect the DBPOWER mini projector with a tablet or smartphone, it is necessary to use a wireless HDMI adapter. For Android phones which support MHL an MHL to HDMI cable is required and for iPhones & iPads, a Lightning to HDMI cable adapter is required.

To connect the mini video projector to PCs or laptops, please adjust the PC/laptop display resolution to 800\*600 or 1024\*768 for best clarity.

Please note that it is only suitable for use in dark rooms. Dolby support not supported. Please turn off Dolby digital in your device.

## **ACCESSORY LIST**

- 1 x AV signal cable
- 1 x Remote control (battery not included)
- 1 x HDMI cable
- 1 x Power Cable
- 1 x User manual
- 1 x Warranty card
- 1 x Operation guide

# SAFETY NOTICE

Please read the user manual carefully before using the projector.

Please use a standard power cord with ground wire to ensure stable power supply.

Please use the same power voltage as marked on the projector.

Please do not disassemble the projector by yourself; otherwise the warranty will be void.

Please do not look into the lens when the projector is operating, otherwise it may hurt your eyes.

Please do not cover the projector ventilation holes with any material.

Please keep the projector away from water or any other liquid as it is not waterproof.

Please don't put the projector in wet or moist conditions to prevent electric shock.

Please turn off and unplug from the power supply if not using the projector for a long time.

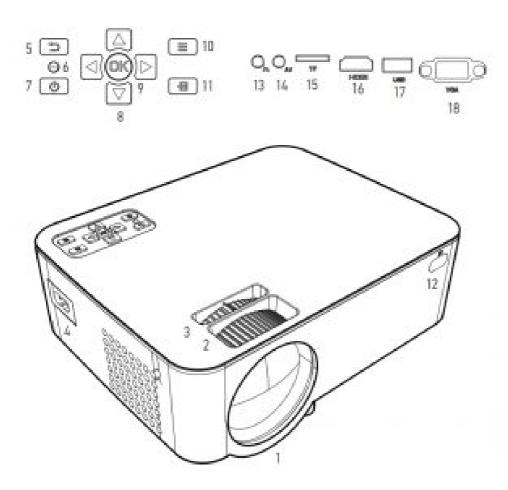

Please use the original packing foam or other anti-shock material when relocating the projector.

Please contact our customer support if the projector has any problems.

This mini projector comes with a full 24-month warranty.

Please contact us if you want to know more information about the warranty.

(Warranty service does not include the frame, manual, packing and subjective ideas about the video, sound or image aspects)

## IR TRANSMITTER

## Caution

Do not submerge the remote control in water.

Do not put the remote control near fire or in wet/hot places.

Do not use old and new batteries together in the remote control.

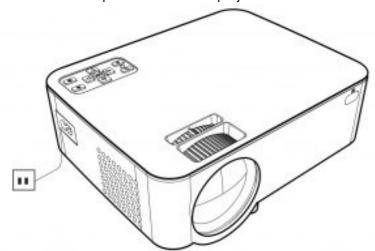

Please take the batteries out if not using the remote control for a long time to avoid battery leakage.

Please point the remote control at the IR receiver.

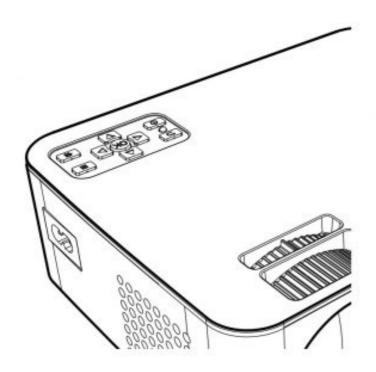

## **USER MANUAL**

## 4.1 Connecting the projector to power

4.1.1 Connect the power cable to the projector.

4.1.2 The projector will display an indicator light when connected to power.

## 4.2 Power ON/OFF

Press the " U " button on the projector or on the remote control to power on.

## 4.3 Multimedia boot screen

After 2-5 seconds, the multimedia screen will be displayed.

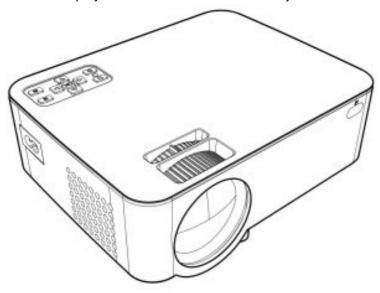

## 4.4 Focus & keystone correction

**4.4.1** If the image is displayed as a trapezoid shape, you can adjust it with the keystone correction function by pressing button 3.

This should normalize the display image.

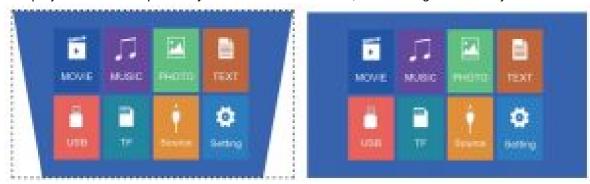

## 4.4.2 Image focusing

Make sure the projector is horizontal to the projector screen and adjust the focus by pressing button 2. You can display video or the menu to check adjustment.

## **SOLUTION**

The projector uses an optical keystone correction function, so the image can be adjusted as below:

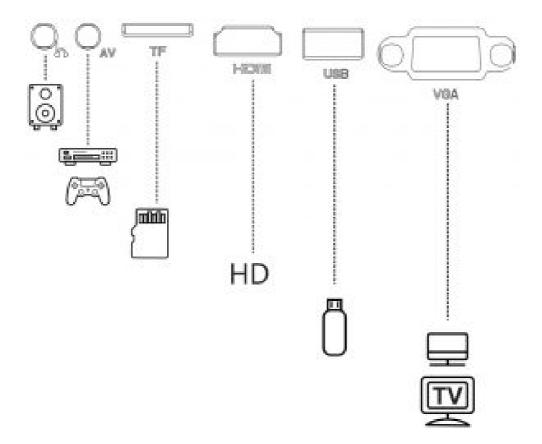

However, this projector does not have a horizontal keystone correction function.

The projector must be placed horizontally to the projection screen. If you encounter this problem, it is probably because the projector has not been placed horizontally to the projection screen, or the projection screen is not vertically positioned.

Solution: Adjust the projector's position so that it is horizontal to the screen.

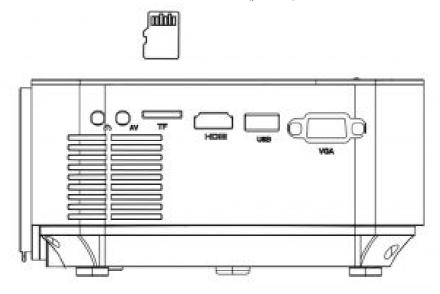

## 5.1 Connections

Connect multiple devices and applications.

# 5.2 Playing media from a USB/TF card

**5.2.1** Insert the USB/TF card into the slot (picture).

**5.2.2** Choose TF or USB as source from the menu.
