Dehner Switching Adapter

Safety Information

Read Before Use!

Disconnect from mains supply in case of malfunction or damage and send the unit to the manufacturer for

inspection. The unit is maintenance-free and does not contain serviceable parts. In fault condition internal fuses (if existing) trip off irreversibly

WARNING

Not adhering to the instructions contained in this manual and the product specifications might cause electric shock, fires, severe accidents, injuries, and damages to persons, animals and property!

- Dangerous voltages occur on the inside of the unit. The housing must not be opened. The power supply does not contain any serviceable parts
- Adhere to the specifications on the nameplate. Check for correct voltage and polarity, as well as the suitability of the power supply for the intended use. Load must not exceed nominal values. Relevant industry standards and accident-prevention regulations for installation, connection and operation must be observed. Ground (FG), if any exists, must be connected to earth ground
- Any defective or faulty unit (including damaged housing, cables and/or plugs) must not be operated and is to be disconnected from mains power immediately and secured against further use
- For dry indoor environments only. Keep dry and out of direct sunlight, do not cover. Do not operate near heat sources. Unit is not waterproof and not splash-proof. Retrieve information on permissible ambient conditions from specification or datasheet
- Disconnect from mains power line when not in use

Intended Use

This switching power supply is intended for powering low voltage consuming devices and is in conformance with relevant European Directives. Any other use is not permitted

Notice: Combination or assembly of different units bearing a CE mark does not necessarily form a compliant system. Re-evaluation of conformity to the mandatory directives is to be performed by the manufacturer of the completed system

Disposal:

This device must not be disposed of in domestic waste. Always dispose of electronic appliances at the designated collection facilities. For more information refer to www.ElektroG.de
