## Description

The extension socket by Delock with USB charging function is suitable for extending sockets on an existing socket outlet.

### Make 3 out of 1

Whether in the kitchen, living area or office. There is a lack of free sockets. This multiple socket makes three out of one free grounded socket. The cube shape also provides a space-saving solution.

## USB charger included

In addition to the sockets, one USB Type-C™ and one USB Type-A charging ports are provided. Common fast charging technologies, such as Power Delivery (PD) 3.0, are supported. This makes the charging process as safe and fast as possible.

## Specification

- Connectors:
  - Input:
    - 1 x plug CEE 7/7
  - Output:
    - 3 x power socket CEE 7/3 with childproof lock
    - 1 x USB Type-A female
    - 1 x USB Type-C™ female
- Rated current: 16.0 A / 250 V~
- Rated power: 3680.0 W
- LEDs for status monitoring
- USB Charger:
  - Input: AC 250 V / 50 Hz / 0.5 A
  - Output power: max. 20.0 W total
  - USB-A: 5.0 V / 3.0 A, 9.0 V / 2.22 A, 12.0 V / 1.67 A
  - USB-C™: 5.0 V / 3.0 A, 9.0 V / 2.22 A, 12.0 V / 1.67 A
  - Over current protection, over heating protection, short circuit protection
- Average active efficiency 82.06 %
- Efficiency at low load (10 %) 78.21 %
- No-load power consumption 0.138 W

- Colour: white
- Dimensions (LxWxH): ca. 66 x 66 x 87 mm

## Package content

- Extension socket

## Safety instructions

- This product is only intended for the connection of 220 V ~ 250 V devices to the power line.
- The total power of the connected electrical equipment must not exceed the rated power 3680 W of this product.
- To reduce the risk of electric shock-use only indoors and in dry locations.
- Keep it away from liquids and extreme heat.
- The socket cube must only be plugged into a grounded outlet.
- Do not connect several power strips in a row.
- Do not cover when in use.
- Disconnect from Voltage only when the plug is pulled out.
- Unplug the product during the thunderstorms.
- It is recommended to replace the socket cube after a serious power surge or several years of using.

## Installation and Operation

1. Insert the plug of the socket cube into a wall socket.
2. Connect your electric appliance and electronic devices to the AC outlets and USB ports.
3. Unplug your USB devices from the socket cube when fully charged or not in use.

## WEEE-notice

The WEEE (Waste Electrical and Electronic Equipment)-directive, which became effective as European law on

February 13th 2003, resulted in an all out change in the disposal of disused electro devices. The primarily purpose of this directive is the avoidance of electrical waste (WEEE) and at the same time the support of recycling and other forms of recycling in order to reduce waste. The WEEE-logo on the device and the package indicates that the device should not be disposed in the normal household garbage. You are responsible for taking the disused electrical and electronical devices to a respective collecting point. A separated collection and reasonable recycling of your electrical waste helps handling the natural resources more economical. Furthermore recycling of electrical waste is a contribution to keep the environment and thus also the health of men. Further information about disposal of electrical and electronical waste, recycling and the collection points are available in local organizations, waste management enterprises, in specialized trade and the producer of the device.
