DELTA RJ45T-EKRAN P100 Shielded Modular Plug

Product Information

- **Product Name:** RJ45T-EKRAN*P100
- **Product Type:** Shielded modular plug
- **Connector Type:** RJ45T-EKRAN*P100 EZ type
- **Attachment of Connector Elements:** Wire mounting
- **Application:** Used to terminate Ethernet cables
- **Material:** Not specified

Main Features

- Cable passage to the wires that makes it easier to terminate
- Shielded to provide protection against electromagnetic interference
- **Weight:** Not specified
- **Guarantee:** Not specified

Product Usage Instructions

- **Step 1:** Strip the outer jacket of the Ethernet cable to expose the inner wires.
- **Step 2:** Arrange the inner wires according to the T568A or T568B wiring standard.
- **Step 3:** Insert the arranged wires into the cable passage of the modular plug.
- **Step 4:** Use a crimping tool to crimp the modular plug onto the Ethernet cable.

Note: Ensure that the device is secured against contact with caustic, staining, and viscous fluids to ensure safety of operation.

Warning

- Please read the user manual included in this work as it contains important information related with safety of installation and use of the device.
- Only persons who read the user manual may use the device.
- The user manual must be kept because it may be required in the future. The device is to be used exclusively for purposes specified in this user manual.
- The device must be unpacked prior to starting-up. After removing the packaging make sure the device is in working order.
- If the product has defects, it should not be used until it is repaired.
- The product is intended for use at home and commercial use and may not be used for other than intended use.
- The manufacturer is not liable for damages resulting from not adhering to the rules contained in the user manual, therefore, we recommend to follow the aforementioned safety rules for operation and maintenance of the device.
- In this way you will ensure yourself safety and avoid causing damage to the device.
- The manufacturer and the supplier are not liable for losses or damages arising out of the product, including financial or intangible losses, loss of profits, income, data, pleasure from use of the product or other products related with it – indirect, incidental or consequential loss or damage.

The above provisions apply whether the loss or damage concerns:

- Deterioration of quality or the lack of operation of the products or products related with it due to damage as well as the lack of access to the product when it is undergoing repair, which results in stoppage the loss of user's time or a break in business activity;
- Improper results of operation of the product or products related with it;
- It applies to losses and damages according to any legal category, including negligence and other losses, termination of a contract, expressed or implied guarantee and strict liability (even if the manufacturer or the supplier was notified about the possibility of occurrence of such damages).

Safety measures

Particular attention at designing was directed to quality standards of the device where ensuring safety of operation is the most important factor. The device must be secured against contact with caustic, staining and viscous fluids.
