Connect

Use the switch underneath the keyboard to switch between Bluetooth, wired and USB receiver.
Switch to the middle = Wired connection and off (if cable is disconnected).
Wired connection: Use a USB-C cable to connect with a wired connection.
Switch to the right = 2.4 GHz wireless connection to USB receiver.

1. The ESC key will flash green to indicate pairing mode (USB receiver).

2. Connect the USB receiver to your device. The keyboard will connect automatically.

3. Once connected successfully it will stop flashing.

Switch to the left = Bluetooth.
With Bluetooth you can connect up to 3 devices.
Quick press FN + Q/W/E = Quickly switch between 1, 2 or 3.

1. The ESC key will flash blue slowly to indicate Bluetooth mode (the ESC key will flash fast to indicate pairing mode).

2. Press and hold FN + Q for 5 seconds = Pair Bluetooth device 1. Press and hold FN + W for 5 seconds = Pair Bluetooth device 2. Press and hold FN + E for 5 seconds = Pair Bluetooth device 3.

3. Once connected successfully it will stop flashing.

The keyboard will connect automatically to devices it has been connected to previously.
When switching to Bluetooth from wired or wireless 2.4G connection, the ESC key will flash blue if the connection was successful.
Note: With Bluetooth 4.0 or higher 2 names will be displayed. You can connect to any, but "5.0" is preferred choice. With Bluetooth 3.0 and lower only 1 name will be displayed.
The keyboard's Bluetooth names:
Black keyboard names are DK440 5.0 and DK440 3.0.
White keyboard names are WK95 5.0 and WK95 3.0.
Pink keyboard names are PK95 5.0 and PK95 3.0.
Sleep mode
If there is no activity within 120 seconds the keyboard will enter sleep mode. If the keyboard is disconnected from all devices or fail to connect it will enter sleep mode after 90 seconds. Press any key to wake up the keyboard.
