DELTACO TB-630 Multi Color Backlit Bluetooth Keyboard

Product Information

The TB-630 is a multi-color backlit Bluetooth keyboard manufactured by a Nordic brand. It is compatible with computers and USB chargers. The keyboard features a USB port for charging, with a red LED indicating the charging process and a green LED indicating a fully charged battery. It takes approximately 4-5 hours to fully charge an empty battery.

The keyboard includes special functions and a Windows key for enhanced usability. It also has a sleep mode that activates after 10 minutes of inactivity, and can be awakened by pressing any key.

If you encounter any issues with the use or installation of the product, please contact the manufacturer for support. Provide them with your operating system and the item number for better assistance. Support can be reached via email at **help@deltaco.eu**. Additional product and support information can be found on the manufacturer's website: **www.deltaco.eu**.

Disposal of the keyboard should not be treated as regular household waste. It should be returned to a collection point for recycling electric and electronic devices. Contact your municipality, waste disposal services, or the retailer where you purchased the product for more information on proper disposal methods.

Product Usage Instructions

1. Connect the keyboard to your computer or USB charger using the USB port.
2. During charging, a red LED will be lit. Once the battery is fully charged, a green LED will be lit.
3. To activate special functions, use the Windows key on the keyboard.
4. The keyboard will enter sleep mode after 10 minutes of inactivity. Press any key to wake it up.

Charging the battery
The battery needs to be recharged when the RED LED is blinking. Connect the supplied charging cable to the CHARGE INPUT and a USB port on your computer or USB charger. The RED LED is lit during charging.
The GREEN LED is lit when the battery is fully charged, An empty battery is fully charged in approximately 4-5 hours.

Pairing the keyboard with a Bluetooth device

- Power the keyboard on.
- Press and hold the Fn and C key.

  The BLUE LED starts blinking.

  The keyboard is now detectable by other Bluetooth devices.
- On you tablet, search for Bluetooth devices.

  Refer to your tablet user manual if needed.
- On you tablet, select the Bluetooth device called

  "Bluetooth 3.0 Keyboard".

  The BLUE LED is turned off, indicating successful pairing.

Selecting operating system
Press and hold the Fn-key and then press the iOS, Android or Windows key.

Backlight

- Press the lightbulb key to switch keyboard backlight on and off.
- Press the lightbulb key in combination with the arrow keys to toggle between backlight colors.

Function keys
Press the Fn key in combination with F1-F12 to trigger special functions.

Sleep mode
The keyboard will go into sleep mode after 10 minutes. Press any key to wake from sleep.
