When Numlock is turned on, the LED changes to green for about 5 seconds and then the LED turns off to save power.

*The power switch and Micro USB-B charge port.*

## LED status

Low battery: LED is yellow.  
Charging: LED is red.  
Capslock is on: LED is blue.  
Numlock is on: LED is green.

## Connect

Connect the USB receiver to a USB port on the computer. Use the power switch on the keyboard to turn it on. The keyboard will connect automatically.

## MOUSE

1. Left mouse button
2. Right mouse button
3. Mouse wheel button
4. DPI button
5. Desktop button
6. On/off/LEDs off button (Underneath the mouse)

## Use

Connect the USB receiver to a USB port on your computer. Turn on the mouse. They will connect automatically. No drivers are needed. Clicking on the desktop button will show your computer's desktop. It is the same as the windows key + D short cut on a keyboard. You can turn the mouse on or off and turn off the LEDs with the switch underneath the mouse. Change the DPI with the DPI button.

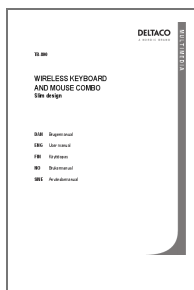

Disposal of electric and electronic devices EC Directive 2012/19/EU This product is not to be treated as regular household waste but must be returned to a collection point for recycling electric and electronic devices. Further information is available from your municipality, your municipality's waste disposal services, or the retailer where you purchased your product.
