Set-up Guide

Wired Connection

1. Find the connection mode switch and switch to wired mode.

2. Connect the mouse to your computer using the provided cable, plug and play.

2.4G Wireless (2·4G)

1. Find the connection mode switch and switch to 2.4G wireless mode.

2. Insert the USB receiver into the computer, then start to use the mouse, automatically pairing.

3. If the mouse can not pair with the USB receiver, please keep pressing the pair button for 3 seconds to enter pairing mode, then the pairing indicator light will then flash rapidly. Plug the USB receiver into the computer, and the mouse will pair with the computer automatically.

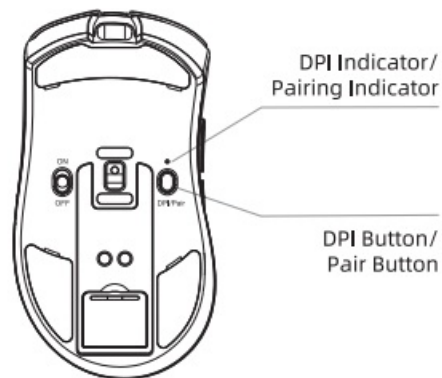

4. If the connection was built up, the pairing indicator light will automatically turn off.
