- 1.2-in/30-mm High Backlit LCD Easily Readable in Dimly-Lit Nurseries
- Scale is Completely Submersible Underwater

Bulletin No. C267C

DEPENDABLE ACCURACY for CLINICAL SETTINGS

DETECTO's Mariner® WPS12DT wet diaper scale meets all the hygiene demands of any active medical environment.

HYGIENIC AND HEAVY-DUTY

The watertight AC plug and stainless steel construction allow for easy clean up, prevent corrosion, and reduce the risk of bacteria harboring in nooks and crannies. The 5/8-in deep removable stainless steel tray with raised edges holds items neatly on the weighing platform and makes clean up effortless. Both of these features are a necessity for messy nursery applications.

EASY-TO-USE, PORTABLE, AND CONVENIENT

The backlit blue LCD display offers large 1-in/25-mm high bold digits, readily visible in even the dimmest nursery conditions. The raised buttons allow for tactile functionality and easy operation. The UNIT key toggles through six different weight capacity display options in both decimals and fractions. The tare function conveniently allows the weight of a dry diaper to be removed from the total weight of a soiled diaper. The convenient 80-hour rechargeable battery pack with automatic shut-off feature conserves energy and allows the scale to be moved where it is needed the most.

Removable stainless steel tray makes sanitation effortless.

Backlit LCD is easily visible, even in darkened rooms so babies won't be disturbed.
