**DEVI Basic Intelligent Electronic Timer Controlled Floor Thermostat With App Control**

## **Specifications:**

- Product: DEVIreg™ Basic
- Type: Intelligent electronic timer-controlled floor thermostat with App control
- Installation: Wall mounted in standard EU wall mount boxes
- Features: Adaptive timer support, control of total heating and comfort heating, compatible with 55×55 framing systems

## **Product Usage Instructions:**

### **Introduction**

The DEVIreg™ Basic is an electrical floor heating thermostat designed for efficient control of your electrical floor heating system by floor temperature. It can be wall mounted in standard EU wall mount boxes for control of total and comfort heating of the room.

### **Standard Compliance**

The product complies with relevant standards for electrical safety, electromagnetic compatibility, and Radio aspects. It operates in the 2.4 GHz band and is in compliance with Directive 2014/53/EU.

### **Safety Instructions**

Before installation, ensure that the mains power supply to the thermostat is shut off. Refer to instructional videos on the manufacturer's YouTube channel for detailed features and functions.

### **Installation Guidelines**

For optimal performance:

- Install the sensor more than 50 cm from window and door openings.
- Avoid direct wet areas for installation.
- Ensure a bending radius of more than 50 mm for the Flexpipe.
- Place the floor sensor with equal distances between two heating cables (>2 cm).

### **Installation Steps:**

1. Unpack the thermostat and check all parts are delivered.
2. Place the floor sensor in the Flexpipe ensuring proper fixation.
3. Ensure the bending radius of the Flexpipe is more than 50 mm.

### **FAQ:**

- **Q:** Can the DEVIreg™ Basic be used in bathrooms?
- **A:** While the thermostat should not be installed in direct wet areas (Zones 0, 1, and 2), it can be installed in

bathrooms following local regulations regarding IP classes.
