Set up, extend, adapt, maintain an overview: the intuitive devolo Home Network App for controlling the devolo Magic adapter.

Make a note of the Wi-Fi key on the back of the devolo Magic WiFi mini adapter.

Connect the devolo Magic WiFi mini adapter to a free wall socket and wait until the LED quickly flashes white (approx. 1 minute).

devolo Magic WiFi mini adapter ›

Within 3 minutes, press the button on the side of your devolo Magic LAN adapter which is connected to the router.

The encryption process takes place automatically. During this time, the LEDs of both adapters flash white.

The process is complete as soon as all of the LEDs on the devices light up solid white. The process takes a maximum of 3 minutes.

< devolo Magic LAN adapter

Set up the Wi-Fi connection on your smartphone, etc. The basic installation process is complete. If you have not so far had a Magic WiFi adapter on your network, you can subsequently and optionally set up Mesh Wi-Fi technology.

7

To do this, the Wi-Fi access data is transferred as a one-off to the devolo Magic WiFi mini adapter at the press of

a button. This gives you the best Wi-Fi coverage in any room.

8 **Optional Mesh Technology**

Connect the devolo Magic WiFi mini adapter for the initial setup process to a free wall socket near your router (max. distance 10 metres) and wait around 1 minute until the LED lights up white.

9

max. 10m

devolo Magic WiFi mini adapter >

1 min

Briefly press the button on your devolo Magic WiFi mini adapter. After the button is pressed, the LED flashes white. Press the WPS button on your router within 2 minutes. Please consult your router's instruction for use to find out how long to press the button for.

Once the LED lights up solid white, the process has been completed successfully.

You can now disconnect your devolo Magic WiFi mini adapter and place it in your preferred location. Done! devolo Magic adapters get you seamlessly onto the Internet anywhere in the house with the strongest possible connection.

PLC button ⌂
