dewenwils HPID01C Touch Dimmer Switch

3-Level Touch Pad Dimmer

[Instruction Manual]

Please pay attention to the warning signs Read the instructions with caution before operating and keep it properly
Note: This dimmer switch only works for dimmable LED bulb, or Incandescent bulb. It is not suitable for non-dimmable LED.

Warning

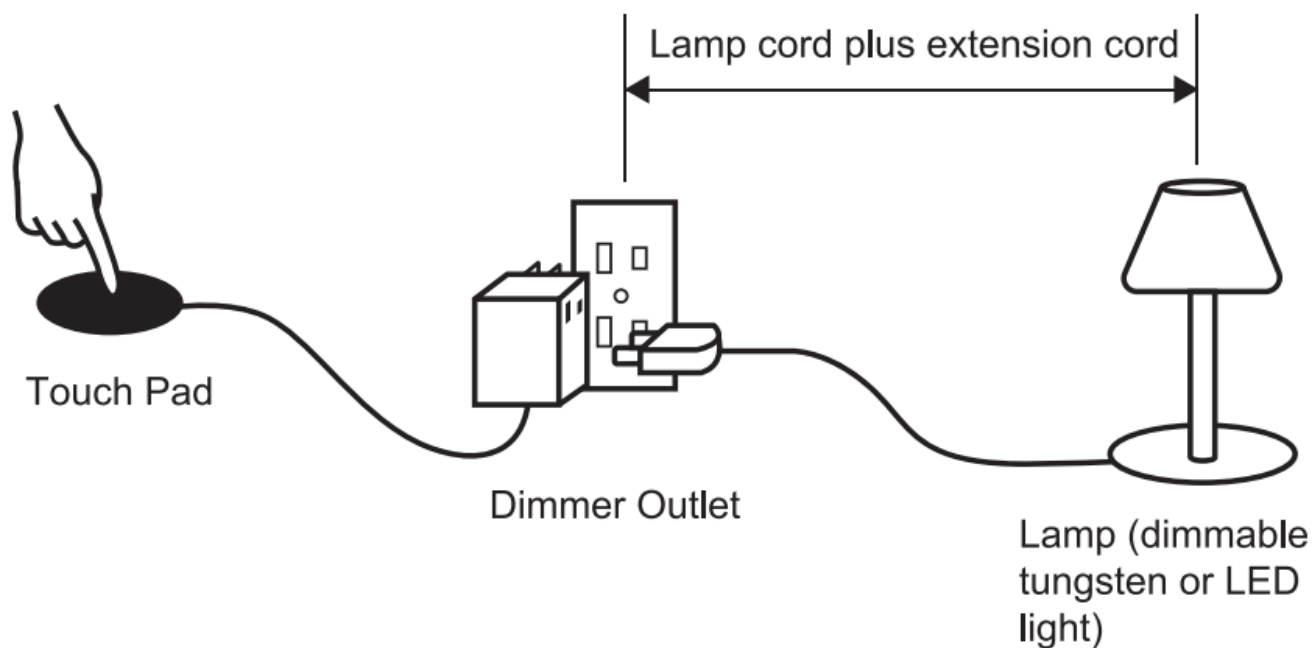

- To be installed and used in accordance with appropriate electrical codes and regulations.
- To avoid overheating and possible damage to other equipment, do not use to control motor-operated or transformer-supplied appliances.
- Do not use with 3-way bulbs or compact fluorescent lamps Feature.
- Children are not allowed to use the dimmer without supervision.
- Do not disassemble or repair the product, but only by authorized service personnel.

Installation Instructions

Before installing, make sure the lamp switch is in OFF position.

1. Plug lamp into dimmer
2. Plug the dimmer into a polarized receptacle, shown as figure1. NOTE: This device has a polarized plug (one blade wider than the other) and a polarized outlet (one slot is longer than the other). The plug is not intended to be mated with non-polarized outlets (having both slots the same size).

3. Place the touch pad in a convenient location. The pad must not touch any metallic conductive surface as this will overload the sensing signal.
4. 1st touch 30% brightness; 2nd touch 60% brightness, for normal room light; 3rd touch 100% brightness , full brightness for reading; 4th touch-off.

Note: Do not use this dimmer control with another dimmer in the same circuit.

Specifications

- **Input Voltage:** 120VAC 60Hz
- **Max. load Power:** Tungsten Load 200W LED 75W
- **Cord Length:** 8ft
