## Product Usage Instructions

### Getting Started

### Set Up

Use a card pin to stick the sim tray. Insert or remove the Nano SIM card with the gold contacts facing down. Do not attempt to insert a non-Nano SIM card as it may damage the tablet's SIM card slot.

### Powering On the Tablet

Press and hold the Power key for a few seconds to turn on the tablet. Follow the on-screen instructions to set up the tablet for the first time.

### Powering Off the Tablet

While the tablet is on, press and hold the Power key until the pop-up menu appears, then select Power off to confirm.

### Home Screen

You can organize applications, shortcuts, folders, and widgets on your Home screen for quick access. Swipe up to view additional screens.

### Application – Camera

### Taking a Picture

To take a picture, open the camera app, aim at the subject, adjust settings, then touch the screen or press the volume key to capture.

### Recording a Video

To record a video, open the camera app, select Video mode, start recording by touching the screen, stop by

touching again. You can pause and save screenshots during recording.

## FAQ

- **Q: Can I use a non-Nano SIM card in the tablet?**
    - A: No, using a non-Nano SIM card may damage the tablet's SIM card slot. Only use Nano SIM cards.
- **Q: How do I access the notification panel?**
    - A: Touch and drag down from the status bar to open the notification panel.

## About this Manual

## Getting started

### Set up

Use card pin to stick sim tray Inserting or removing the Nano SIM card

Following the instructions illustrated in above picture, you can insert the Nano SIM card into the SIM tray with gold contacts facing down, or remove the Nano SIM card from the sim tray. This tablet supports Nano SIM card only. Do not attempt to insert a non-Nano SIM card as it may damage the tablet's SIM card slot

### Powering on the tablet

Press and hold the Power key for a few seconds to power on your tablet.

### Set up your tablet for the first time

The first time you power on the tablet, you should set it up following the below steps:

1. Select the tablet's language, and then press "Start".
2. Connect to Wi-Fi, then enter password.
3. Set up Gmail and Services by following the prompts, view Terms and select "I agree".
4. Set up the "Protect your tablet feature". This feature prevents others from using your tablet without your permission.
5. Next, the Google Services page will be displayed. Choose the services you wish to use and select "Accept" from the options at the bottom of your screen.

Note: Even without a SIM card installed, your tablet will still power on and you will be able to connect to a Wi-Fi network and use some of the tablet features.

### Powering off your tablet

While the tablet is on, press and hold the Power key until the pop-up menu appears, select Power off to confirm
