DigiMax HMP-38HS 3 Head Mounting Plate with Hex Stud Instructions

Mounting a Head

1. Screw the tripod head onto the 3/8-16 thread. Make sure the head is flush against the mounting plate.
2. Tighten the setscrews with a slotted screwdriver until the head is secure. Don't overtighten.
3. Loosen the receiver's or super clamp's locking knob, press and hold silver safety button. Then fully insert the hex stud into the receiver, release the safety button, and tighten the locking knob.
