Air Exec Keyboard Case for iPad 10 Gen

—

Product Information

Congratulations on your purchase of this keyboard case. This product is designed to provide a convenient and efficient typing experience for your device. Please read the following instructions to ensure proper care, maintenance, and usage of the product.

Package Contents:

- Keyboard case
- Micro USB cable
- User manual

Safety Instructions:

Before using the product, please take note of the following safety instructions:

- While cleaning the product, always unplug it from the power supply.
- Use only a dry soft cloth to wipe the product. Avoid water or any other liquids.
- If not using the product for an extended period of time, unplug

it.

- Avoid using harsh cleansers or detergents.

Product Usage Instructions

Preparation for Use:

Follow these steps to prepare the keyboard case for use:

1. Unpack the accessories carefully, and keep the box and packing materials for future storage.

Setup Keyboard for Use:

Follow the steps below to set up the keyboard:

1. Place the keyboard case in the stationary position as shown in **Figure A**.
2. To adjust the operating position angle, refer to **Figure B**.
3. To charge the keyboard case, follow these steps as shown in **Figure C**:

- Connect the included micro USB cable to a powered USB hub, USB port on your computer, or any USB power adapter.
- While charging, the LED indicator light will be illuminated in red.
- When fully charged, the LED indicator will not be illuminated. When charging is required, the LED indicator will flash red.

Getting to Know Your Keyboard:

Familiarize yourself with the keyboard features:

- **CAPS Indicator Light:** When lit blue, indicates UPPERCASE mode. If not lit, you are typing in lowercase mode.
- **Charging Indicator Light:** When lit red, indicates the keyboard is charging.
- **Power Indicator Light:** When flashing, indicates the need to charge the keyboard. When first powered on, the light will stay lit for 4 seconds to show power but will turn off to save energy.

Reset Pairing:

If you need to reset the pairing of your device with the keyboard case, follow these steps:

1. Tap on the "More Information" icon on your device's screen.
2. Select "Forget This Device" on your device's screen.

Keyboard Shortcuts:

Use the following keyboard shortcuts for different system functions:

Safety instructions
Congratulations on your purchase of this keyboard case. To get the most from your product, please take a few minutes to read these instructions.
· Always follow basic safety precautions
1. Care and maintenance instructions
While cleaning the product, you should first unplug them from the power supply (where applicable) Use only a dry soft cloth to wipe the product. Never allow water or any other liquids to get inside the product while cleaning. Unplug the product if you are not using it for an extended period of time. Avoid using harsh cleansers or detergents.
2. Preparation for use
Unpack the accessories carefully. We recommend that you save the box and packing materials in case you wish to store the products.

How to setup keyboard for use
Place your iPad® inside of the case making sure you align the camera hole on the case with the camera on the back of the iPad® and clip into place. The keyboard case has a stationary position and an operating position. Stationary position (Figure A) and operating position (Figure B). The stationary position is for when you are transporting and storing the iPad®and the operating position is designed to provide the user with a preferred

viewing angle while you are typing.

FIGURE A:
STATIONARY POSITION

FIGURE B:
OPERATING POSITION ANGLE

Stationary position to operating position
The case will be moved from the stationary position to the operating position by opening the keyboard case with the iPad® case on top and the keyboard on the bottom (Figure C). The top of the keyboard should be aligned with the bottom of the case. You will feel the magnets hold the keyboard in place, then angle the iPad® case so that it rests on top of the keyboard case. This can be adjusted based on your preferred viewing angle. (Figure B)
FIGURE C:

Charging
It is critically important to make sure both your iPad®and keyboard case are fully charged before use. To charge your Keyboard Case; 1. Locate the micro USB slot that is on the (right) side of the keyboard case
(parallel to the power switch). 2. Use the included micro USB cable and plug it into a powered USB hub, USB port on your computer or any USB power adapter (not included) 3. While the keyboard is being charged, the LED indicator light will be illuminated
with a RED color. When they keyboard case is fully charged, the LED indicator will not be illuminated. When the keyboard case requires charging, the LED indicator will flash RED.
Getting to know your keyboard
1. CAPS indicator light; when lit blue, will show you are in UPPERCASE mode. If not lit, you are typing in lowercase mode.
2. Bluetooth® indicator light; when connecting a blue light will flash. Once connected, the light will stop flashing.
3. Charging Indicator Light: When lit red, indicates keyboard is charging. 4. Power Indicator Light: when flashing, indicates you need to charge the
keyboard. When first powered on, the light will stay lit for 4 seconds to show power but will turn off to save energy.

Connecting your keyboard with your iPad® for the first time
Note: This keyboard is designed with shortcut keys (the keys that have blue color writing/icons) that are only optimized for the Apple iOS iPad®operating system). This keyboard will operate on other Bluetooth® enabled devices however the aforementioned shortcut keys will not function according to the table outlined below in this manual as this keyboard is designed for use with Apple® mobile devices. 1. Turn on your iPad® and go to your settings. In settings, select Bluetooth®and
make sure you have Bluetooth® enabled (in the ON position). 2. Turn on the power button on your keyboard case by moving the toggle switch
to the right. Note, even though the power LED indicator will illuminate in blue color and will turn off after 4 seconds; the keyboard is still on and will remain on until you toggle the power switch to the OFF position. 3. Press and hold down the "Fn+Connect" button (+) for 3 seconds. The LED indicator over the Bluetooth® icon will flash in a blue color. 4. In Bluetooth®settings on your iPad®, you will see a new device "Bluetooth® keyboard" appear. Select this and it will begin to pair. 5. You will now see the word "Connected" next to the "Bluetooth® keyboard" in your Bluetooth® setting. You are now paired. Note: If you lose the connection (such as when your keyboard case depletes battery and needs to be recharged); to reconnect, simply find the Bluetooth® keyboard in your Bluetooth® settings, select "Not connected" and your iPad® will search for the keyboard case. Make certain the keyboard case is powered on. The status of your Keyboard in Bluetooth® settings should change to "Connected".

How to reset pairing
If your iPad® displays "Connection Unsuccessful", make certain the Bluetooth® keyboard is powered on and in range (within approximately 30 feet) of the iPad®. If after checking the above and it will still not pair, simply delete the profile by selecting the Bluetooth® keyboard, then select "Delete This Device" and repeat the pairing process again.

Tap on the More Information icon your iPad screen

Tap on Forget This Device on your iPad screen

* Repeat steps 1-6 to connect the keyboard to your iPad®

Keyboard shortcuts
The blue icons on the keys of the keyboard, indicate that you will need to hold down the "Fn"button on the bottom left of the keyboard at the same time as selecting the shortcut you would like.the "Fn" button.

Operating position to stationary position
Once you are finished using your keyboard case, it must be closed properly to avoid damage to your keyboard or iPad®. Make sure the bottom of the iPad® case while in operating mode is positioned on the top of the keyboard. Next, while closing the keyboard case, make sure the top of the iPad®case is evenly aligned with the bottom of the keyboard. Once closed completely, the two magnets on the case strap will hold the case together in stationary position until you are ready to use the keyboard and/or iPad® again. (See figure A & B)
