NOTE: VIEW FROM BACK OF FIREPLACE TRIM
FIREPLACE TRIM INSTALLATION

1. Adjust trim width and height to fit the fireplace opening.
2. Install the two L-shaped brackets (A) onto the back of the trim with the screws provided.
3. Install the two brackets (B) onto the bottom of the fireplace insert with the crews provided.
4. Slide the trim into the brackets that are mounted on the bottom of the fireplace insert.
5. Adjust the trim to the desired depth and secure it with the two screws provided.
6. Slide the trim and fireplace insert assembly into the fireplace opening so the trim fits flush to the fireplace opening.

NOTE:
