Set date on device. Select time zone Select time zone on device

Set time

Set time on device.

Use 24

hour format Use 24 hour format or am / pm mode.

Select date format

Select date display options

12. Touch screen calibration

Performs touch panel calibration.

13. Gsensor calibration

Performs calibration on G Sensor functionality.

14. About Device

Displays device information.

Using MicroSD card

In order to safely remove the storage card from the device go to Settings SD card & device storage. Choose 'Unmount MicroSD card' for safe removal of the card. The toolbar will display MicroSD card safe to remove when this option is chosen. Please wait 3 seconds before removing the card. When the MicroSD card is removed, the toolbar will display Removed MicroSD card. Reinserting the MicroSD card will show Preparing MicroSD card on the toolbar status. Removing MicroSD card without first unmounting will give the following message MicroSD card unexpectedly removed on the toolbar. You may also remove your MicroSD card by touching the unmount button in My Device

IMPORTANT Any unexpected removal may cause the MicroSD card to fail. You will have to reboot the device in order for the MicroSD card slot to work again. Removing the MicroSD card without unmounting may damage the card. Please also refer to MicroSD card & device storage

Using HDMI

The HDMI output can be used when playing videos. A HDMI cable can be connected between the Tablet and a HD TV for full screen viewing. Press the Menu button on the back of the tablet to project the video onto the desired screen.

- **System Memory:** DDRII 256MB
- **Display:** 1024 x 600
- **Touch Panel:** Resistive Multi Touch
- **Battery:** Li Polymer 3800 mAh
- **Operating**
- **Temperature:** 0-55 C.

Recycling

This crossed bin symbol on the appliance indicates that the product, at the end of its life, must be disposed of separately from domestic waste, either by taking it to a separate waste disposal site for electric and electronic appliance or by returning it to your dealer when you buy another similar appliance. The user is responsible for taking the appliance to a special waste disposal site at the end of its life. If the disused appliance is collected correctly as separate waste, it can be recycled, treated and disposed of ecologically; this avoids a negative impact on both the environment and health, and contributes towards the recycling of the product's materials. For further information regarding the waste disposal service available, contact your local waste disposal agency or the place of purchase

Troubleshooting

1. I cannot connect to the Internet using Manual Setup.

Ans: Ensure you have used Menu Save when exiting the advanced settings page.

2. I can see my access point name , but I cannot connect to the Internet.

Ans: If your access point (AP) supports multiple access points at a time, you may have to connect the device using WPA encryption and not WEP. Please refer to your AP device manual for setup details.

3. My MicroSD card is not being detected and /or shows damaged SD card

Ans : Please reinsert the MicroSD card and try again. If this does not work , please restart the device again with MicroSD card inserted. Please ensure that you have removed the MicroSD card using the correct procedure as described in section 4.

4. My system freezes when installing / removing applications.

Ans: This may be caused by a memory handling error. Use Clear Cache option (See section 3.5) and Force Close icon in application manager before removing the software. If the system continues to freeze, please press the reset button on the side of the device and power on again.

5. My device freezes while powering on.

Ans: This may be caused by a failure in reading the MicroSD card. Please press the reset button and power on again. Also, please ensure that the card is fully inserted. Alternatively, please try to start the device with the MicroSD card removed.

6. **Can I manually change the screen orientation?**

Ans Yes. Please check in “ Sound & Display ” in Settings ”. Un check the “ Orientation ” option , which will enable the manual orientation button on the tool bar.

7. **The device showed an error message and the application closed: “ android.process.acore ”**

Ans: This happens when the system has too many applications running at once. Please check your open applications as noted in section 3.

8. **What is the life of the battery?**

Ans: A complete charge will give 4 hours battery life with wireless functionality turned on.

9. **Can I update my tablet?**

Ans: The “Upgrade System” in “Settings” will allow you to update your tablet when new versions of firmware or Operating Systems become available. All new updates/versions will be announced on the “My Disgo” website; [www. my disgo.com](http://www.mydisgo.com)

10. **Can I amend the Operating System or code on the device myself**

Ans: No . Any misuse of the tablet in this way will void the warranty

11. **I have my MicroSD card inserted, but I am unable to use applications that require a MicroSD card.**

Ans: The device checks the first MicroSD card slot (as the default slot. Please insert the MicroSD card to the first slot (when using the voice recording, camera image, and application such as SlideMe.

12. **The touch screen is not very responsive**

Ans: As the touch screen is resistive , please use the stylus provided for best results.

For further technical queries, please contact the my disgo support helpdesk @ www.mydisgo.com/support
