Be sure to read this instruction manual carefully before use, and  
Please operate according to the instructions.

1. Please place the speaker in a stable and safe place to avoid damage from falling or personal injury.
2. Keep enough space around the speaker for optimal sound quality performance.
3. Do not insert any foreign objects into the speaker grille or jack.
4. Do not hit the speaker vigorously or hit the speaker with external force.
5. Stay away from heat sources and do not approach open flames, microwave ovens, electric heaters and other electrical appliances that can generate high heat to ensure safety.
6. Only use the supplied accessories.
7. If you have any questions, please contact the original manufacturer or agent, and consult professional maintenance personnel to solve the problem.

## **DECLARATION OF CONFORMITY**

The waste container symbol with the X through it on The device indicates that the device must be disposed of of being separately from normal domestic waste at anAn appropriate waste disposal facility at the end of its useful service life. Please dispose of

used batteries properly following local regulations. Do NOT Incinerate. Removal of the rechargeable lithium-ion battery. This product should be used only by a qualified professional.

ROHS This product complies with Directive 2011/65/EU of the European Parliament and the Council of 1 July 2011 on the Restriction of the use of certain hazardous substances in electrical and electronic equipment. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## **FCC Warning**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference
2. This device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, under part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can radiate radio frequency energy and, if not installed and used according to the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the

receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet the general RF exposure requirements. The device can be used in portable exposure conditions without restriction.
