Dixib Technology

Dixib Technology T611-F 3 In 1 Magnetic Wireless Charging Stand

Package List

1 × 3 in 1 Magnetic Wireless Charging Stand, 1 x User Manual

Specifications

1. Phone Charging Area
2. Earbuds Charging Area
3. USB-C Interface
4. LED Indicator

Note

1. Do not disassemble the device without permission.
2. A Quick Charger adapter and cable are required for fast wireless charging.
3. Make sure your device supports Qi wireless charging protocol or is installed with a Qi-compliant wireless receiver (exclusive).
4. To carry out mobile phone suction charging, please ensure that the phone is capable of magnetic suction or is

equipped with magnetic suction accessories (such as magnetic and protective case).

5. Do not use or store the magnetic wireless charger in a high-temperature or humid environment.
6. The magnet may interfere with the magnetic charging of the product or cause failure. To avoid interference between other devices or products, please keep magnetic chip cards (such as ID cards and credit cards) and medical devices (such as pacemakers, defibrillators, hearing aids, etc.) at least 20 cm away from the products, and more than 30 cm in wireless charging.

FCC

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

FCC Warning

CAUTION: Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, under part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used by the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance 20cm between the radiator & your body.
