DLYFULL

DLYFULL B2 Battery Tester LCD

Launch Date: March 2021

Price: \$16.99

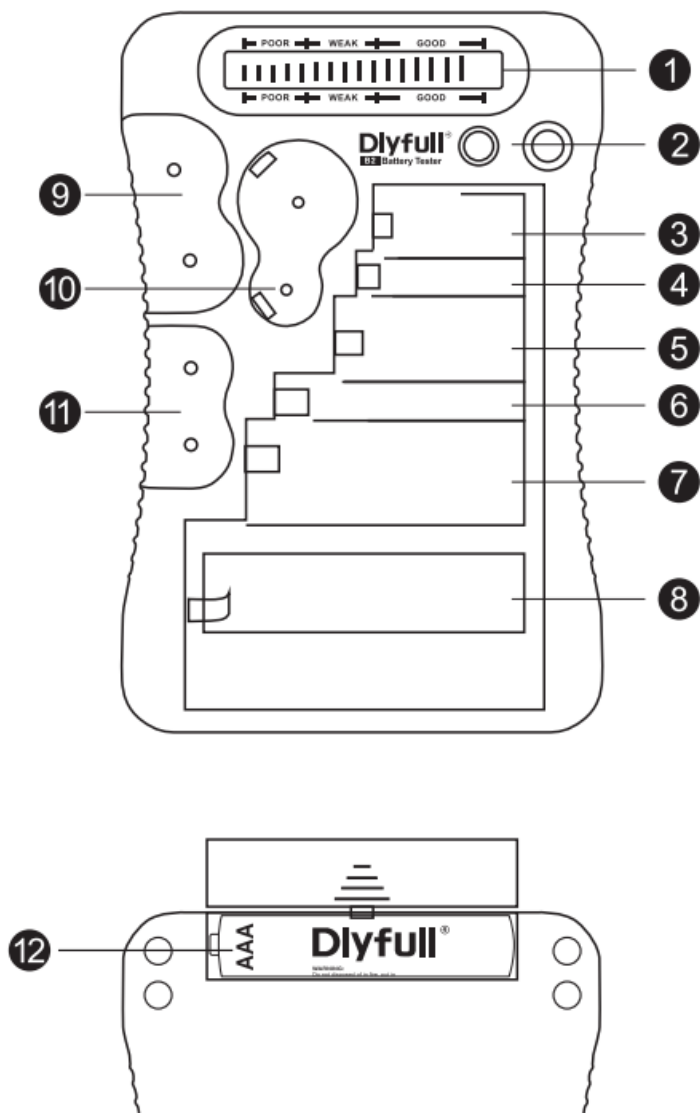

Introduction

Anyone who uses batteries daily needs the DLYFULL B2 Battery Tester LCD. This small, portable instrument makes testing AAA, AA, C, D, 9V, and 1.5V button cells easy. Its crisp LCD display helps users assess battery life and replacement. The DLYFULL B2 is simple to use and built of high-quality ABS plastic. It's lightweight and easy to carry and store, making it excellent for home and travel. The tester is energy-efficient and reliable with one AAA battery. DLYFULL B2 Battery Tester LCD is a useful household addition for keeping remote controls, toys, and torches available. Saves time and reduces waste by optimizing battery use.

Specifications

- **Brand:** DLYFULL
- **Power Source:** Battery Powered
- **Style:** Voltage Tester
- **Color:** Black
- **Display:** LCD
- **Battery Types Tested:** AAA, AA, C, D, 9V, 1.5V Button Cell
- **Dimensions:** 110mm x 60mm x 25mm
- **Weight:** 60 grams
- **Material:** ABS Plastic
- **Tester Power Source:** 1 x AAA battery

Package Includes

- 1 x DLYFULL B2 Battery Tester LCD
- 1 x AAA battery (for the tester)
- 1 x User Manual

Features

Wide Compatibility

- **Extensive Battery Range:** The DLYFULL B2 Battery Tester LCD is compatible with a broad spectrum of batteries, including AAA, AA, C, D, 9V, and 1.5V button cells. It also supports AA, AAA, C, CR123A, D, 9V, N, CR2, CRV3, 2CR5, and CR-P2 cylindrical batteries, as well as a wide variety of button cell batteries, making it a versatile tool for various battery types.

Clear LCD Display

- **Easy-to-Read Results:** The tester features a crisp LCD screen that clearly displays the battery's health status. It shows whether the battery is in poor, weak, or good condition using simple bars, providing users with accurate and easy-to-interpret results.

Easy-to-Read LCD Screen

Clearly shows what you need to know about your batteries' health

Compact Design

- **Portability:** With its lightweight and portable design, the DLYFULL B2 Battery Tester LCD is convenient for both home use and travel. Its compact chassis fits comfortably in your pocket or bag, allowing you to carry it anywhere.

Easy to Use

- **User-Friendly Operation:** The tester is designed for simplicity, with clear instructions provided for easy operation. Simply place the battery into the designated slot and read the results on the LCD screen.

Durable Construction

- **High-Quality Material:** Made from high-quality ABS plastic, the DLYFULL B2 Battery Tester LCD is built to last. Its durable construction ensures longevity and reliable performance over time.

High Compatibility

- **Versatile Testing:** The tester not only checks common batteries like AA, AAA, C, D, 9V, and button cells, but also other types such as CR123A, N, CR2, CRV3, 2CR5, and CR-P2, offering extensive compatibility for various battery types.

Works with 12 Different Battery Sizes

Cylindrical Batteries

Special Batteries

Button cell

9V Batteries

Crisp LCD Screen

- **Detailed Analysis:** The easy-to-use analyzer displays detailed information about the battery's health, accurately indicating whether the battery is in poor, weak, or good condition based on its voltage.

Quick Results

- **Efficient Testing:** Simply place a battery into the tester, and it quickly shows the battery's health status using bars on the LCD screen. This feature helps avoid battery damage from unnecessary recharges. Note that the tester should not be powered by rechargeable batteries nor used to test rechargeable batteries.

Remarkably Compact

- **Small and Lightweight:** One of the smallest and lightest portable battery checkers available, it features a pocket-friendly compact chassis with an anti-slip finish, ensuring a firm grip during battery testing.

Package Includes

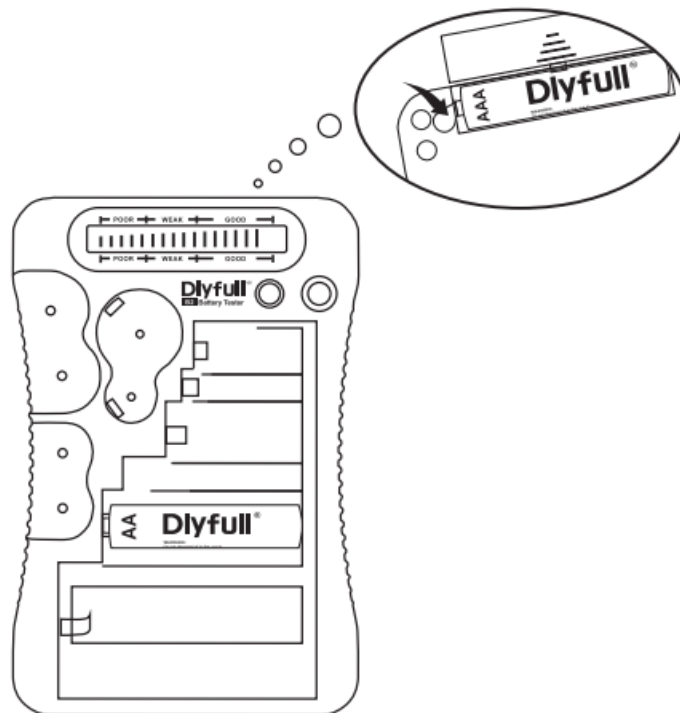

- **Complete Set:** The package includes the DLYFULL Universal Battery Tester, one AAA battery for the tester's power, a welcome guide, and an 18-month worry-free warranty. Additionally, it comes with friendly customer service to assist you with any issues.

Living Assistant

- **Cost-Effective:** The DLYFULL B2 Battery Tester LCD helps you save money by prolonging the lifespan of your

batteries, ensuring you only replace batteries when necessary.

Usage

- Remove the Clear Plastic Strip
- Insert Battery Tested

Attention

- Don't expose to liquids
- Don't disassemble
- Avoid droovina
- Avoid extreme temperatures

Tip: Please ensure the power battery is powerful to use.

Care and Maintenance

- **Storage:** Keep the tester in a dry place to avoid moisture damage.
- **Cleaning:** Wipe with a soft, dry cloth. Avoid using harsh chemicals or water.
- **Battery Replacement:** Replace the AAA battery powering the tester when the display becomes dim or unresponsive.

Troubleshooting

Issue	Possible Cause	Solution
No Display	AAA battery is not properly installed	Check and properly install the AAA battery
	AAA battery is depleted	Replace the AAA battery
	Device is defective	Contact customer support
Inaccurate Readings	Battery is not correctly positioned	Reposition the battery in the tester
	AAA battery in tester is low	Replace the AAA battery
	Tester contacts are dirty	Clean the contacts gently
Display Issues	LCD screen is dirty	Clean the screen with a soft, dry cloth
	Device has internal damage	Contact customer support
LCD Screen Unresponsive	AAA battery is low	Replace the AAA battery
	Internal circuitry issue	Contact customer support

Customer Service

- 18-month limited warranty
- Lifetime technical support

We hope you never have the need, but if you do, our service is friendly and hassle-free: service@dlyfull.com

FAQs

What types of batteries can the DLYFULL B2 Battery Tester LCD test?

The DLYFULL B2 Battery Tester LCD can test AAA, AA, C, D, 9V, and 1.5V button cells.

How does the DLYFULL B2 Battery Tester LCD display battery levels?

The DLYFULL B2 Battery Tester LCD uses a clear LCD screen to display the remaining power levels of the battery being tested.

What power source does the DLYFULL B2 Battery Tester LCD require?

The DLYFULL B2 Battery Tester LCD is powered by a single AAA battery.

What material is the DLYFULL B2 Battery Tester LCD made from?

The DLYFULL B2 Battery Tester LCD is made from high-quality ABS plastic.

How do you use the DLYFULL B2 Battery Tester LCD to test a battery?

To use the DLYFULL B2 Battery Tester LCD, insert the battery into the appropriate slot and read the result displayed on the LCD screen.

What should you do if the DLYFULL B2 Battery Tester LCD shows no display?

If the DLYFULL B2 Battery Tester LCD shows no display, check the AAA battery installation and replace the battery if necessary.
