To prevent dangerous situations during use, please read the safety instructions.

1. Please do not place the product near heaters, microwave ovens, rice cookers, pressure cookers and other heating equipment to prevent the product from overheating and causing a fire.
2. Please do not drop or hit the product to avoid an explosion.
3. When used by children, please ensure normal operation under adult supervision.
4. Do not use in a low temperature and humid environment, the normal use environment is 0-50°C.
5. Do not disassemble or repair the product without authorization.
6. Do not place the product within 20cm of medical equipment to prevent equipment interference.
7. When not in use, please unplug the product charger from the socket to avoid consuming the battery life or causing damage.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
