Intended use

Please read these instructions carefully and follow all instructions, guidelines, and warnings included in this product manual in order to ensure that you install, use, and maintain the product properly at all times. These instructions **MUST** stay with this product.

By using the product, you hereby confirm that you have read all instructions, guidelines, and warnings carefully and that you understand and agree to abide by the terms and conditions as set forth herein. You agree to use this product only for the intended purpose and application and in accordance with the instructions, guidelines, and warnings as set forth in this product manual as well as in accordance with all applicable laws and regulations. A failure to read and follow the instructions and warnings set forth herein may result in an injury to yourself and others, damage to your product or damage to other property in the vicinity.

This product manual, including the instructions, guidelines, and warnings, and related documentation, maybe subject to changes and pdates. For up-to-date product information, please visit documents.dometic.com,

Intended use

The spiral cable is required to connect the camera and monitor when installing the RVS reversing video system, with a manufacture date as of January 2010, in a truck with tractor and semi-trailer/trailer:

- 9600000209 SPK150 is compatible with RV-500SPK
- 9600000220 SPK160 is compatible with RV-100SPK
- 9600000235 SPK170 is compatible with CAM44 and CAM604
- 9600005573 SPK180-V is compatible with the original camera from Volvo

The cable set has been designed for the requirements of commercial use. The installation sockets are supplied ready for connection and enable easy final mounting on the vehicle.

This product is only suitable for the intended purpose and application in accordance with these instructions.

This manual provides information that is necessary for proper installation and/or operation of the product.

Poor installation and/or improper operating or maintenance will result in unsatisfactory performance and a possible failure.

The manufacturer accepts no liability for any injury or damage to the product resulting from:

- Incorrect assembly or connection, including excess voltage
- Incorrect maintenance or use of spare parts other than original spare parts provided by the manufacturer
- Alterations to the product without express permission from the manufacturer
- Use for purposes other than those described in this manual

Dometic reserves the right to change product appearance and product specifications.

Safety and installation instructions

This documentation contains mounting instructions. The manufacturer will not accept any warranty for damages resulting from incorrect installation.

When installing the spiral cable, note the following:

- Use the drilling template supplied to mark the mounting position of the sockets (fig.1, page 3).
- Always install the DIN plug connection with the socket contacts towards the camera, i.e. on the semi-trailer/trailer.
- Choose the installation position for the socket so that the required cable length does not exceed the total length of the connection cable. Please note that the required cable length will change when driving along curves or jackknifing the trailer.

Scope of delivery

Description	SPK 150	SPK160	SPK 170	SPK180-V
Sockets for towing vehicles	9102200065	9102200087	9102200173	9600005598
