Safety First!

1. Use caution when handling heavy or bulky components to prevent injury or damage to yourself and the product.
2. Always wear protective equipment, such as gloves and safety glasses, when using power tools to avoid accidents.
3. Do not over-tighten screws or bolts, as this can damage the components or compromise the stability of the product.
4. Please follow the provided instructions carefully to ensure proper assembly and use of the product.
5. Keep small parts away from children or pets, as they can be a choking hazard.
6. Inspect the product for any defects or damages before assembly, and contact us if you notice any issues.
7. Please do not modify the product or use it for any purpose other than its intended use.
8. Use caution when working with sharp tools or edges, and keep them away from children and pets.
9. If you are uncertain about any aspect of the assembly process, seek assistance from a professional or contact us for further assistance.
10. take care when installing to ensure that the shelves are mounted at a suitable and safe height, in particular for children or pets.
11. Do not sit or stand on the product.
12. Use a pipe or cable detector to check that the area is free from pipes or electric cables. To aid installation, you could also use a stud detector to indicate where the vertical beams (studs) and horizontal beams (noggins) are.
13. This product is not intended to support heavy objects. Avoid placing excessive weight to prevent damage and instability.

WRONG

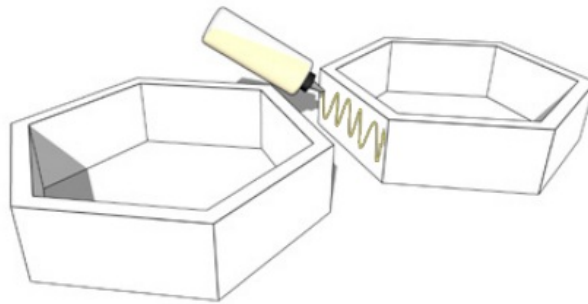

CORRECT

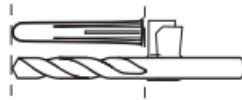

MAX 5 Kg per shelf (distributed weight)

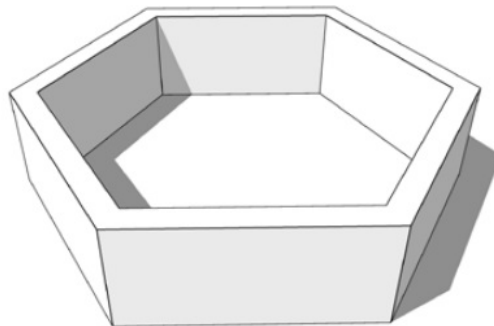

Tip: if purchasing multiple shelves, use wood glue to attach them before installation and then follow the guide accordingly.

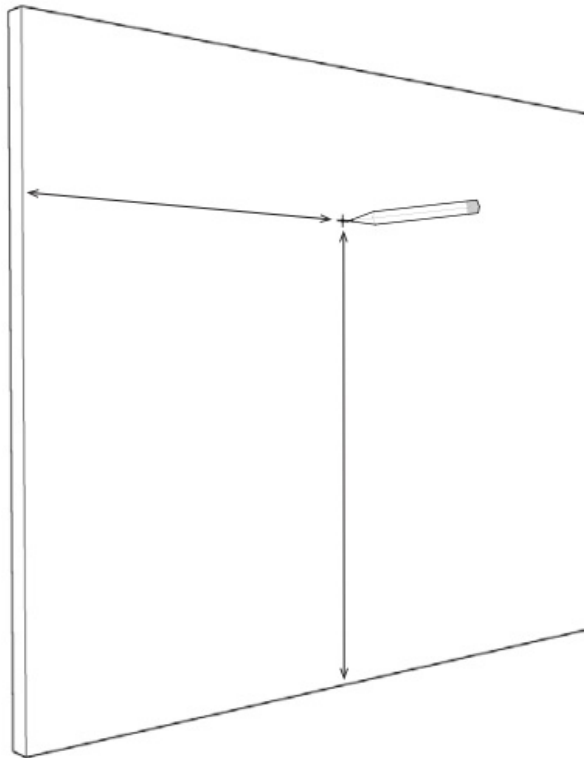

Tip: to ensure you are drilling to the correct depth, use masking tape to Mark the length of your wall plugs onto your drill bit.

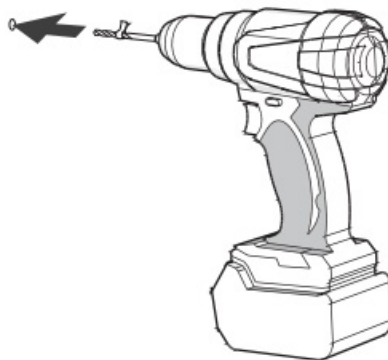

1. Please read the Safety Guidelines stated above before you start assembling the product. To allow you to work comfortably, ensure ample space around the area you intend to hang the shelf.

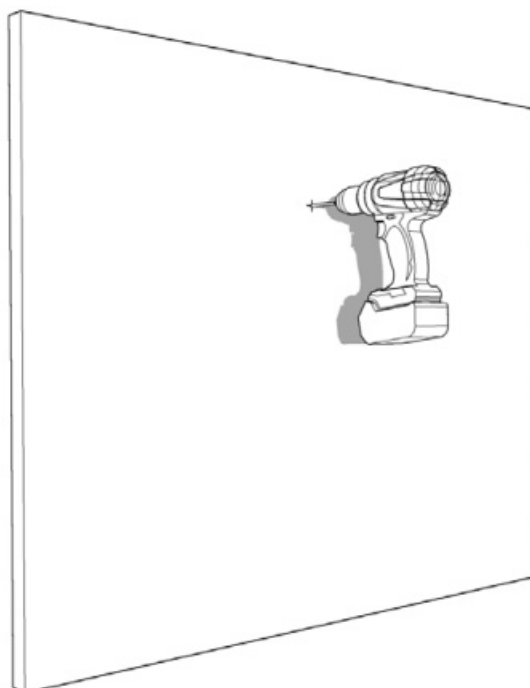

2. Decide where you want to hang the hexagonal shelves on the wall. Use a measuring tape to space between the shelves.

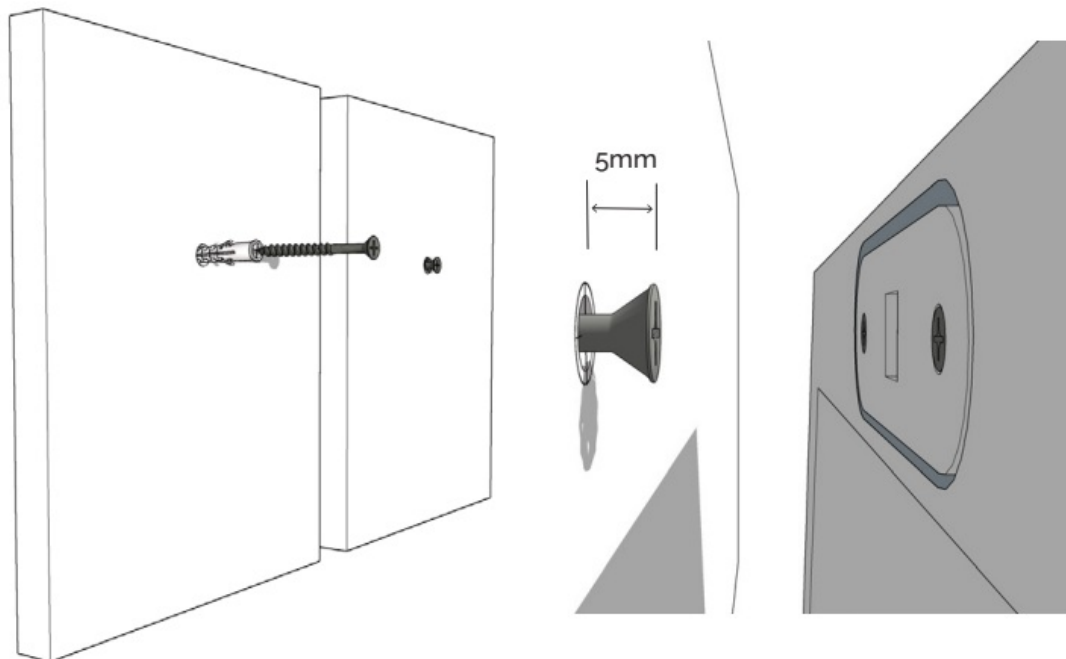

3. Use a pencil to make small marks on the wall to indicate the placement of each shelf.

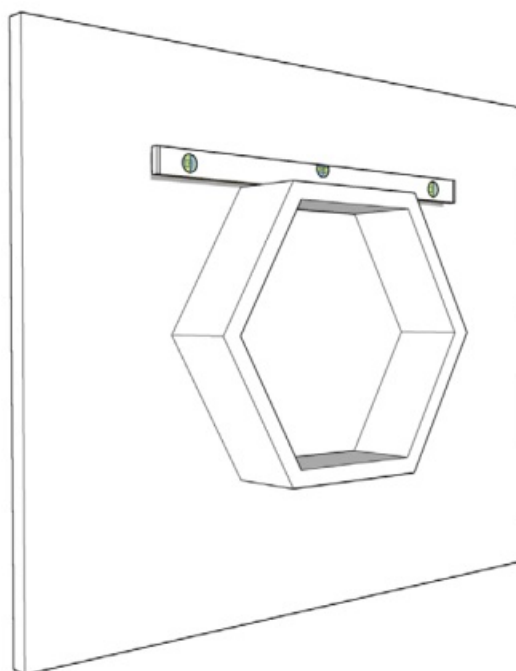

4. If there are no studs in the desired places for their species-appropriate Will towers the wall will be mounted making sure they are flush with wall surface.

5. Insert the shelf fastener screw into the wall anchor and tighten it with a screwdriver then trim the wall surface.

6. Pete is in the val sure with me.

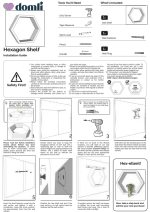

7. I took the sethe shei eve lots est thereof is strain use a level to ensure the shelf is straight.

Hex-Allen!
Now, take a step back and admire your new purchase!
