Specification

Keyboard

• Working voltage: < 1.5 V

• Working current: < 3.0mA

• Net weight: 499 ± 10g (the battery and receiver are not included)

• Size: 448*136*24±1mm

Mouse

Working voltage: ,;; 1.5VWorking current: ,;; 11mA

• **Net weight:** 60±3g (include the receiver but not the battery)

• Size: 113*64*31±1mm

Function

- 1. Both the mouse and keyboard share the same receiver to connect to the computer.
- 2. Mouse CPI: 1200

3. Compatibility: Windows XP/ 7/ 8/ 10/ VISTA; Mac (The multifunction buttons of the keyboard are not available in Mac)

Troubleshooting for Connection Failures

- Mouse: Insert the battery and plug the receiver into your computer. The distance between the mouse and the receiver should be within 50 cm. Press the left button, scroll button and the right button of the mouse simultaneously for over 3 s to enter the paring mode for the mouse. If the cursor moves when you move the mouse within 20 s, the pairing is complete.
- **Keyboard:** Insert the battery and plug the receiver into the computer. The distance between the keyboard and the receiver should be within 50 cm. Press the "ESC" and "+/=" simultaneously for over 3 s to enter the paring mode for the keyboard with the indicator light on. If the indicator light goes off within 20 s, the pairing is complete.

Functions of multifunction buttons

Fn+F1	Fn+F2	Fn+F3	Fn+F4	Fn+F5	Fn+F6
Open the audio	Volume down	Volume up	Mute	Previous track	Next Track
Fn+F7	Fn+F8	Fn+F9	Fn+F10	Fn+F11	Fn+F12
Play/pause	Stop	Homepage	Email	My computer	Favorites

Consideration

- 1. Only AAA alkaline battery can be used on the keyboard and only AA battery can be used on the mouse. If the product will be lain idle for a long time, take out the batteries to prevent from corrosion.
- 2. The working range is 10 meters for the 2.4 GHz transmission. However, the effective distance shortens when something obstructs it.

FCC

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection againstharmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference e to radio or television reception, which can be determined by turning the equipmentoff and on, the user is encouraged to try to correct the interference by one or more of thefollowing measures:

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
