Product overview

Charging

guidelines Automatically attract the magnetic head close to the watch.

App downloads and pairing

App downloads

Scan the QR code on the right, and download the “GloryFit” APP from “APP Store” or “Google play”.

<https://app.help-document.com/gloryfit/download/index.html>

Pairing

Turn on GloryFit app -> Activate Bluetooth connection on your phone -> Search on the app for the device to pair with (or scan the QR code on the device) -> Finish binding on the app (or on the device).

Screen operation

Swipe up: Enter the push information page

Swipe down: Enter the shortcut key function setting page

Swipe to the left: Enter the weather interface to view recent weather information.

Swipe to the right: Enter the page of steps, mileage, and consumption status of the day.

Features

Metal thin and light body (multiple colors are available) non-sense wear, 24H*7 real-time heart rate, accurate step counting, APP massive dials optional, custom dials can be edited, support Android/105 mobile message push.

Attention information

1. When using the watch for the first time, please fully charge the watch.
2. Please do not disassemble it by yourself. If your watch fails, please contact our designated after-sales service center.
3. Charging must be carried out under the condition of good ventilation and heat dissipation, away from flammable and explosive materials.
4. Avoid using it in an environment where the temperature is too high and then too low, and avoid exposing it to strong sunlight or an environment with high humidity.
5. When the use of the watch may cause interference or danger, please do not turn it on.
5. Keep the equipment dry. For stains that are difficult to remove, it is recommended to use a non-soa cleaner and scrub with alcohol.
6. Waterproof performance: This product is not suitable for diving, swimming, swimming in the sea or the wild, suitable for shower (old water) swimming and shallow water swimming.
7. If the content described in this manual does not match your watch, please refer to the actual product.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

The device meets the EU ROHS criterion.

Please refer to IEC 62321, EU ROHS Directive 2011/65/EU, and revised directive.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and 2. this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Old electrical appliances must not be disposed of together with the residual waste, but have to be disposed of separately. The disposal at the communal collecting point via private persons is for free. The owner of old appliances is responsible to bring the appliances to these collecting points or to similar collection points. With this little personal effort, you contribute to recycling valuable raw materials and the treatment of toxic substances.

If you experience discomfort or skin irritation when wearing your smartwatch, then we recommend you try cleaning your device. Sometimes residue or foreign materials build up around your device and may aggravate your skin. It's also possible that you are not wearing the watch correctly. We recommend making sure to clean and adjust your watch regularly for a more comfortable fit.

Caution:

- If you experience skin irritation when wearing your watch, please refrain from wearing it and wait two to three days to see if your symptoms ease. If symptoms persist or worsen, please consult a physician.
- If you have eczema, allergies, or asthma, you may be more likely to experience skin irritation or allergy from a wearable device.
