DORESshop Mushroom Plug in Lamp

INTRODUCTION

For both children and adults, the DORESSshop Mushroom Plug-in Lamp is a charming and useful nightlight that will add a whimsical and cosy touch to your living area. This plug-in LED bulb, which comes in a handy 2-pack for only **\$15.19**, is fashioned like a cute mushroom and is ideal for hallways, bathrooms, bedrooms, and nurseries. The lamp has three illumination modes: solid colour, warm 3000K white, and automated multicolour cycling colour-changing possibilities. It is made of sturdy acrylic with a soft, unpolished surface. In addition to saving energy, the integrated dusk-to-dawn light sensor makes sure the lamp only turns on in the dark, creating a peaceful atmosphere. It is safe, effective, and perfect for creating a comfortable nighttime atmosphere because it only uses 0.5 watts to provide a soft 30-lumen glow. This LED mushroom light, made by DORESSshop, was introduced as a fun, useful, and reasonably priced present option for infants, children, and fans of adorable décor.

Select from 3 Different Colour Changing Modes

Solid Color

With the push of a button, you can set your night light to the soft white colour.

Color Changing

Press the button on the top and watch the colours change automatically. The night light will continuously cycle through all 8 colours: red, blue, orange, purple, teal, yellow, pink and green.

Solid Color

Press the button when your favourite colour is visible to select it. The night light will then stay on that colour. You can also cycle through the colors manually until your reach the one you want.

FEATURES

- **Kawaii Mushroom Design:** Especially appealing to kids, this design offers a beautiful ornamental element to any space with its adorable mushroom form.
- **Three Lighting Modes:** Provides three different lighting options for a variety of illumination: multicolor cycling mode, warm white 3000K mode, and solid color mode.

- **Ten Bright Colors:** Offers a choice of eight colors to complement any environment or mood, including red, green, blue, pink, orange, purple, yellow, and teal.

- **Nightfall-to-Dawn Sensor:** Featuring an integrated light sensor, this device allows for hands-free operation by turning the light on at nightfall and off at dawn.
- **Energy-efficient:** Using just 0.5 watts of power, it helps save electricity costs while still producing enough light.
- **Two-Pack Value:** Two night lights are included, so they can be placed in different rooms or locations.
- **Push Button Control:** This device has an easy-to-use push button interface that makes changing illumination colors and settings straightforward.
- **Construction of Acrylic Material:** Constructed from sturdy acrylic that is suitable for kid-safe spaces.
- **Wall Mount Design:** No extra installation is needed because it plugs straight into a typical wall outlet.
- **Soft Glow:** A soft, moderate glow of thirty lumens is provided, which is sufficient for navigation without interfering with sleep.
- **Compatibility with 120v:** Made to operate with the typical 120-volt outlets that are present in most households.
- **Decorative Element:** Adds quirky appeal to children's bedroom while serving as a useful night light.
- **Automatic Operation:** By ensuring that the night light only turns on when necessary, the light sensor technology conserves energy.

- **Adaptable Location:** Fits well in kitchens, bathrooms, corridors, staircases, bedrooms, and other spaces that require soft lighting.
- **Gift-Ready Design:** Ideal as an imaginative birthday, holiday, or special occasion present for kids, relatives, or friends.

SETUP GUIDE

- **Carefully unpack:** Take both mushroom night lights out of the box and look for any damage.
- **Choose the Right Places:** Standard wall outlets should be placed in corridors, bathrooms, bedrooms, and other places that require soft night lighting.
- **Plug In:** Make sure the night light is securely plugged into a 120v wall outlet.
- **Position for Sensor Effectiveness:** To ensure optimal operation, make sure the light sensor is not blocked by furniture or other objects.
- **Test the Automatic Function:** Place a cover over the sensor to make it appear dark and make sure the light turns on; expose it to bright light to make sure it works.

- **Cycle Lighting Modes:** To choose between the three illumination modes—solid color, warm white, and color cycling—press the push button.
- **Choose Preferred Color:** Press the button repeatedly until the color you want shows if you're using solid color mode.
- **Keep Units Apart:** To avoid sensor interference, keep both lights at least one meter apart when operating them.
- **Avoid Moisture-Prone Areas:** Although the night light is appropriate for bathrooms, be sure it isn't positioned in an area where it could come into direct contact with water.
- **Verify Fit in Outlet:** Verify that the night light is firmly and steadily installed in the outlet.
- **Test in Various Lighting Circumstances:** Confirm that the sensor functions as intended under various lighting and daytime circumstances.
- **Avoid Heat Sources:** Keep away from radiators, heaters, and other appliances that produce heat.
- **Avoid Contact with Combustible Materials:** Make sure the night light is not near paper, drapes, or other combustible objects.
- **Take Child Access into Account:** If for children's use, place at a height suitable for them; if merely for ambient illumination, place higher.

CARE & MAINTENANCE

- **Unplug Before Cleaning:** Before cleaning, always unplug the night light.
- **Use a Soft Cloth for Cleaning:** To get rid of dust, gently wipe the surface with a soft cloth that is dry or slightly moist.
- **Steer Clear of Harsh Chemicals:** Alcohol, solvents, and abrasive cleansers can harm acrylic.
- **Keep Dry:** Since the night light is not waterproof, keep it away from water and other moisture.
- **Examine Frequently:** Check the plug and body for damage, discolouration, or cracks regularly.
- **Clean Sensor Region:** To keep the light sensor region dust-free for optimal performance, gently wash it off.
- **Do Not Disassemble:** To avoid damage and safety risks, do not open or tamper with internal components.
- **Check Plug Fit:** To avoid electrical problems, make sure the plug is firmly in the outlet on a regular basis.
- **Keep an Eye Out for Flickering:** If the light starts to flicker, there might be a problem; disconnect it, check it, or replace it.
- **Store Properly:** When not in use, store by keeping out of direct sunlight and in a dry, dust-free place.
- **Avoid Dropping:** Take caution when handling to avoid damaging the acrylic or internal parts.
- **Keep Out of Children's Reach:** Although the night light is intended for use in children's rooms, it should not be treated as a toy.
- **Prevent Overheating:** Unplug the night light right away and let it cool down before using it again if it seems abnormally warm.
- **Replace if Damaged:** Rather than continuing to use the night light, replace it if it exhibits noticeable wear or damage.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Light doesn't turn on	Plug not properly inserted	Ensure it's fully plugged into a functional wall outlet
Light stays on during the day	Light sensor covered or blocked	Move lamp to a location with better ambient lighting
Unable to change color	Button not functioning correctly	Press button firmly or unplug and replug the unit
Color cycling stuck	Mode glitch	Switch off, wait 10 seconds, and restart
Flickering light	Voltage fluctuation	Try using a different outlet or surge protector
Dim light output	Normal 30-lumen setting	Use in a darker space for better effect
Light turns off unexpectedly	Ambient light triggered sensor	Check surrounding light levels or move location
Unresponsive button	Dirt or internal fault	Clean gently and retry; unplug before cleaning
One lamp works, the other doesn't	Faulty unit or power issue	Swap outlets to isolate issue or request replacement
Color appears dull or faded	Dust buildup on acrylic surface	Wipe gently with a soft, dry cloth

PROS & CONS

PROS

- Adorable mushroom design ideal for home decor
- Energy-efficient LED lighting with 8 vibrant colors
- Automatic dusk-to-dawn light sensor
- Simple plug-and-play installation
- Gentle 30-lumen brightness suitable for sleep environments

CONS

- Brightness not adjustable
- Not suitable for large room lighting
- No remote or app control features
- Must be wall-mounted near an outlet
- Material has unfinished texture which may not suit all decor

WARRANTY

The DOREShop Mushroom Plug-in Lamp is backed by a limited manufacturer warranty, covering material defects and functional issues under normal usage. The product must be used indoors and plugged into a standard 120V wall outlet. The warranty does not cover damages from misuse, exposure to moisture, or tampering. Customers should retain their proof of purchase for warranty claims. DOREShop aims to ensure product satisfaction and typically offers either a replacement or refund for verified issues. With a long-lasting LED and reliable sensor-based operation, this mushroom nightlight is built to deliver both cuteness and quality over time.

FREQUENTLY ASKED QUESTIONS

What is the design theme of the DORESSshop Mushroom Plug-In Lamp?

The DORESSshop Mushroom Night Light features a kawaii mushroom design made of acrylic, perfect for adding a cute and cozy touch to kids bedrooms or baby rooms.

How many lighting modes does the DORESSshop Mushroom Plug-In Night Light offer?

It has 3 lighting modes: solid color, warm white (3000K), and 8-color auto-cycle mode. All modes are easily accessed using a single push button.

Which colors are available in the DORESSshop Mushroom Plug-In Lamp?

The night light supports 8 vibrant LED colors: red, green, blue, pink, orange, purple, yellow, and teal, suitable for any bedroom, bathroom, or hallway.

What is the brightness level of the DORESSshop Mushroom Night Light?

This night light produces a gentle 30 lumens of brightness, perfect for nighttime comfort without disturbing sleep.

Why is my DORESSshop Mushroom Plug-In Lamp not turning on at night?

Ensure the lamp is plugged into a working outlet and that the area is dark enough for the dusk-to-dawn sensor to activate. Avoid placing it near other light sources.

How do I reset the lighting mode on the DORESSshop Mushroom Plug-In Lamp?

Press the single push button to cycle through the modes. If the lamp becomes unresponsive, unplug it for 30 seconds and plug it back in.

What should I do if the DORESshop Mushroom Plug-In Night Light is stuck in one color?

Try pressing the button multiple times to cycle to the next mode. If theres no change, unplug and reinsert to reset the internal circuitry.
