Safety instructions

1. User's manual is a part of the product and it should be stored with the device.
2. Before use read the user's manual and check the technical specification of the device and strictly obey it.
3. Operating the unit contrary to the instruction manual and its purpose may cause damage to the unit, fire, electric shock or other hazards to the user.
4. The manufacturer is not liable for any damages to persons or property caused by improper use, contrary to its intended purpose, the technical specifications or the user's manual.
5. Before use check if the device or any of its components is not damaged. Do not use damaged product.
6. Do not open, disassemble or modify the device. All repairs may only be made by an authorized service center.
7. The device is intended for indoor. The degree of protection of the device is IP20.
8. The device should be protected against: dropping and shaking · high and low temperatures · direct sunlight · chemicals and other factors that could affect the device and its operation.
9. The device should be cleaned with a dry and soft cloth. Do not use abrasive powders, alcohol, solvents, or other strong detergents.
10. Product is not a toy. The device and packaging must be kept out of the reach of children and animals.

Warranty

The warranty terms are available at <http://www.dpm.eu/gwarancja>.

Please refer to the local collection and segregation rules for electrical and electronic equipment. Observe the regulations and do not dispose electrical and electronic equipment with consumer waste. Proper disposal of used products helps to reduce their harmful effects on the environment and human health.
