Wireless Connection

Before connection, please make sure the keyboard is turned on.

1. 2.4G connection:

- ① Plug the USB Receiver into the USB A port of your computer/TV.
- ② Long press  for 3 seconds to enter into 2.4G mode.

2. Bluetooth connection:

- ① Long press  /  for 3 seconds to enter into pairing mode. Each Bluetooth channel can pair with 1 device. The keyboard will exit from Bluetooth pairing mode if no connection is made within 3 minutes.
- ② On your device, turn on Bluetooth. Search for “**Dracool Keyboard**” and click “**Connect**” to pair with it.

3. Switch between 2.4G/BT1/BT2 channel:

- ① When the keyboard is successfully connected to 2 or 3 devices, you can switch among the devices by short pressing  /  / . The blue indicator of corresponding channel will be on 1 second and then off.

- ② After a successful pairing, the keyboard will pair with the last connected device automatically in 5 seconds when it is turned on again.

LED Indicator & Media Control

Power On/Off: Toggle the switch to ON. The blue indicator will be on and then off after 5 seconds, indicating the keyboard has been powered on. Toggle the switch to OFF to turn off the keyboard.

Low Battery Indicator: LED3 flashes red when the voltage is lower than 3.3V. The keyboard will turn off automatically when the voltage is below 3.0V.

Charging Indicator: LED4 red light will be on and turns off after being fully charged.

Easy Media Control: Press any keys below Directly for corresponding media control function.

Specifications

Bluetooth Version: Bluetooth 5.0

Pairing Name: Dracool Keyboard

Working Range: 10M

Battery Capacity: 1000mAh

Working Current: 1.5mA

Working Time: 500 Hours

Charging Time: 4.5 Hours

- 1* USB-C Charging Cable
- 1* 2.4G USB Receiver
- 1* User Manual

Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

Windows 10 OS
