## Charging

When the battery is too low (<20%), the indicator 1 will flash in red slowly, and you need to charge it. You can use a regular cellphone charger to charge the keyboard or connect it to the USB port of a computer. It takes up to 4 hours for the keyboard to be fully charged.

(1) It is not recommended using a fast charger to charge the keyboard.

(2) The red indicator will be on when the keyboard is in charging, and goes off when charging ends.

## Sleeping Mode

(1) When the keyboard is left idle for 30 seconds, the backlight turns off automatically.

(2) When the keyboard is left idle for 30 minutes, it goes into deep sleeping mode. The Bluetooth connection will be disrupted. The connection recovers if you press any key on the keyboard.

(3) The backlight will be on when the battery is >20% and off when <15%.
