DRACOOL B09NVWRVQ7 Multi Device Wireless Keyboard with Touchpad

Power ON/OFF

- **Power ON**: Toggle switch to ON.
- **Power OFF**: Toggle the switch to OFF.

Pair with a Surface Pro

- **Step 1**: For the first time you pair with a Surface Pro, you just need to toggle the switch to "ON" position and the keyboard will enter Bluetooth pairing mode automatically. To enter this mode, you can also hold the

  [Fn] + [B] simultaneously for 3 seconds and then the blue indicator will flash to indicate that the keyboard is under pairing mode.
- **Step 2**: On the Surface Pro, select All Settings – Devices – Add Bluetooth or Other Device – Bluetooth and then "Wireless Keyboard" will show up as an available device.
- **Step 3**: Select "Wireless Keyboard" on Surface Pro.
- **Step 4**: When the blue indicator stays on, it means that the keyboard is paired with the Surface Pro successfully.

Note: 'If the keyboard doesn't work even though the blue indicator stays on, it might have been paired with other nearby computer. In this case, please follow steps in ! "Troubleshooting in Bluetooth Pairing" to resolve the issue.

Troubleshooting in Bluetooth Pairing

- **Step 1**: Delete all the Bluetooth pairing records related to the keyboard on the Surface Pro.
- **Step 2**: Hold [Fn] + [Del] simultaneously for 5 seconds. The 3 indicators will flash 3 times simultaneously. All connection records related to the keyboard will be deleted and the keyboard has been

restored to factory settings.

LED Indicator
