### **QUICKCLIP Condensate Float Switch**

This innovative American made float switch's translucent body allows for a quick visual confirmation of water presence. Drain Alert® is easy to install in the tightest spaces; no gluing or cutting required.

Exclusive G Distributor

Drain Alert® is versatile, built for primary and auxiliary drain pan outlets. It is compact enough to fit in vertical and horizontal applications. The sensor comes with a 1/2" opening and no extra washer is needed to avoid premature cut off. A plenum wire model is also available for commercial building code requirements.

## **NO Gluing! Cutting! Rerouting!**

#### QUICKCLIP

The Quickclip safety switch control is designed to clip onto the side of metal auxiliary drain pans. Equipped with a magnetic float, the unit comes completely sealed with a factory pre-wired lead.

This switch has been designed to work in conjunction with water only. When the float rises, the circuit will break open and the system will shut down.

#### **Features and Benefits**

- Made of durable impact resistant material
- Can be used on all 24 V systems
- Translucent body allows for a quick visual inspection of water presence
- Easy to install
- 2 year warranty
- Made in the USA

Drain Alert® | Drain Alert® PL

• No gluing or cutting existing drain lines
